

BASE PROSPECTUS

HEMSÖ

HEMSÖ FASTIGHETS AB

(incorporated with limited liability in the Kingdom of Sweden)

EUR 3,000,000,000

Euro Medium Term Note Programme

Under this EUR 3,000,000,000 Euro Medium Term Note Programme (the "**Programme**"), Hemsö Fastighets AB (the "**Issuer**" or "**Hemsö**") may from time to time issue notes (the "**Notes**") denominated in any currency agreed between the Issuer and the relevant Dealer(s) (as defined below).

This Base Prospectus (the "**Base Prospectus**") has been approved by the Central Bank of Ireland (the "**CBI**"), as competent authority under Directive 2003/71/EC, as amended (which includes the amendments made by Directive 2010/73/EU, to the extent that such amendments have been implemented in the relevant Member State of the European Economic Area (the "**Prospectus Directive**"). The CBI only approves this Base Prospectus as meeting the requirements imposed under Irish and European Union ("**EU**") law pursuant to the Prospectus Directive. Application has been made to the Irish Stock Exchange Plc (the "**ISE**") for the Notes issued under the Programme during the period of 12 months from the date of this Base Prospectus to be admitted to the official list (the "**Official List**") and to trading on its regulated market (the "**Main Securities Market**"). Such approval relates only to the Notes which are to be admitted to trading on a regulated market for the purposes of Directive 2004/39/EC ("**MiFID**") and/or which are to be offered to the public in any member state of the European Economic Area. The Main Securities Market is a regulated market for the purposes of MiFID. This Base Prospectus comprises a base prospectus for the purposes of Article 5.4 of the Prospectus Directive.

The Notes may be issued on a continuing basis to one or more of the Dealers specified under "*Overview of the Programme*" and any additional Dealer appointed under the Programme from time to time by the Issuer (each a "**Dealer**" and together the "**Dealers**"), which appointment may be for a specific issue or on an ongoing basis. References in this Base Prospectus to the **relevant Dealer** shall, in the case of an issue of Notes being (or intended to be) subscribed by more than one Dealer, be to all Dealers agreeing to subscribe such Notes.

The Programme also permits Notes to be issued on the basis that they will not be admitted to listing, trading and/or quotation by any competent authority, stock exchange and/or quotation system or to be admitted to listing, trading and/or quotation by such other or further competent authorities, stock exchanges and/or quotation systems as may be agreed with the Issuer.

The Issuer has a corporate rating of A- from Standard & Poor's Credit Market Services Europe Ltd. ("**S&P**") and Notes to be issued under the Programme may be rated by S&P. S&P is established in the European Economic Area ("**EEA**") and registered under Regulation (EU) No 1060/2009, as amended (the "**CRA Regulation**"). S&P appears on the latest update of the list of registered credit rating agencies (as of 9 June 2017) on the ESMA website <http://www.esma.europa.eu>.

A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

Investing in Notes issued under the Programme involves certain risks. The principal risk factors that may affect the ability of the Issuer to fulfil its obligations under the Notes are discussed under "Risk Factors" below.

IMPORTANT NOTICES

IMPORTANT – EEA RETAIL INVESTORS: If the Final Terms in respect of any Notes includes a legend entitled "Prohibition of Sales to EEA Retail Investors", the Notes are not intended, from 1 January 2018, to be offered, sold or otherwise made available to and, with effect from such date, should not be offered, sold or otherwise made available to any retail investor in the European Economic Area. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU ("**MiFID II**"); (ii) a customer within the meaning of the Insurance Mediation Directive (Directive 2002/92/EC (as amended)), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Directive. Consequently, no key information document required by Regulation (EU) No 1286/2014 (the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

Responsibility for this Base Prospectus

The Issuer accepts responsibility for the information contained in this Base Prospectus and any Final Terms and declares that, having taken all reasonable care to ensure that such is the case, the information contained in this Base Prospectus is, to the best of its knowledge, in accordance with the facts and contains no omission likely to affect its import.

Third party information

Certain data under "*Description of the Issuer – Property portfolio*" has been extracted from Statistics Sweden (a national administrative agency tasked with compiling and supplying statistics). The Issuer confirms that such information has been accurately reproduced and that, so far as it is aware, and is able to ascertain from information published by Statistics Sweden, no facts have been omitted which would render the reproduced information inaccurate or misleading. Except for this third party information, all other data set out under "*Description of the Issuer*" has been sourced through internal records.

Alternative performance measures

A number of the financial measures presented by Hemsö under "*Description of the Issuer*" below are not defined in accordance with the IFRS accounting standards. However, Hemsö believes that these measures provide useful supplementary information to both investors and Hemsö's management, as they facilitate the evaluation of company performance. It is to be noted that, since not all companies calculate financial measurements in the same manner, these are not always comparable to measurements used by other companies. Accordingly, these financial measures should not be seen as a substitute for measures defined according to the IFRS. Unless otherwise stated, the list below presents alternative performance measures, along with their reconciliation to the extent that such information is not defined according to the IFRS and not included in Hemsö's financial statements incorporated by reference into this Base Prospectus.

- "Interest coverage ratio" – Net operating income less administrative expenses in relation to net financial items.
- "Loan-to-value ratio" – Interest-bearing net debt as a percentage of the carrying amount of the properties. This ratio measures Hemsö's debt.
- "Surplus ratio" – Net operating income in relation to the sum of property income and other income.
- "Yield" – Net operating income for the past 12 months, adjusted for the holding period and currency of the properties during the period, in relation to the carrying amounts of the properties at period-end, excluding project properties. The calculation method for the "yield" alternative performance measure is set out in more detail in the following table:

Calculation yield		
MSEK	31 December 2015	31 December 2016
Net operating income according to statement of comprehensive income	1,476	1,652
Adjustment to 12 months holding period	27	-49
Adjustment for development properties	-	
Adjusted Net operating income, 12 months holding period excluding development properties	1,503	1,603
Carrying amount of properties according to statement of financial position	26,502	33,629
Carrying amount of development properties	-	-5,400
Adjusted Carrying amount of properties	26,502	28,229
Yield	5.70 per cent.	5.68 per cent.

For these purpose, “**Net operating income**” means rental income less operating and maintenance, property tax and leasehold fees and “**Rental income**” means rental value less vacancies, discounts and rental losses.

Final Terms/Drawdown Prospectus

Each Tranche (as defined herein) of Notes will be issued on the terms set out herein under "*Terms and Conditions of the Notes*" (the "**Conditions**") as completed by a document specific to such Tranche called final terms (the "**Final Terms**") or in a separate prospectus specific to such Tranche (the "**Drawdown Prospectus**") as described under "*Final Terms and Drawdown Prospectuses*" below.

Other relevant information

This Base Prospectus must be read and construed together with any supplements hereto and with any information incorporated by reference herein and, in relation to any Tranche of Notes which is the subject of Final Terms, must be read and construed together with the relevant Final Terms. In the case of a Tranche of Notes which is the subject of a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the relevant Final Terms shall be read and construed as a reference to such information being specified or identified in the relevant Drawdown Prospectus unless the context requires otherwise.

The Issuer has confirmed to the Dealers named under "*Subscription and Sale*" below that this Base Prospectus contains all information which is (in the context of the Programme, the issue and offering and sale of the Notes) material; that such information is true and accurate in all material respects and is not misleading in any material respect; that any opinions, predictions or intentions expressed herein are honestly held or made and are not misleading in any material respect; that this Base Prospectus does not omit to state any material fact necessary to make such information, opinions, predictions or intentions (in the context of the Programme, the issue and offering and sale of the Notes) not misleading in any material respect; and that all proper enquiries have been made to verify the foregoing.

Unauthorised information

No person has been authorised to give any information or to make any representation not contained in or not consistent with this Base Prospectus or any other document entered into in relation to the Programme or any information supplied by the Issuer or such other information as is in the public domain and, if given or made, such information or representation should not be relied upon as having been authorised by the Issuer or any Dealer.

Neither the Dealers nor any of their respective affiliates have authorised the whole or any part of this Base Prospectus and none of them makes any representation or warranty or accepts any responsibility as to the accuracy or completeness of the information contained in this Base Prospectus. Neither the delivery of this Base Prospectus or any Final Terms nor the offering, sale or delivery of any Note shall, in any circumstances, create any implication that the information contained in this Base Prospectus is true subsequent to the date hereof or the date upon which this Base Prospectus has been most recently supplemented or that there has been no adverse change, or any event reasonably likely to involve any adverse change, in the prospects or financial or trading position of the Issuer since the date thereof or, if later, the date upon which this Base Prospectus has been most recently supplemented or that any other information supplied in connection with the Programme is

correct at any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

Restrictions on distribution

The distribution of this Base Prospectus and any Final Terms and the offering, sale and delivery of the Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Base Prospectus or any Final Terms comes are required by the Issuer and the Dealers to inform themselves about and to observe any such restrictions. For a description of certain restrictions on offers, sales and deliveries of Notes and on the distribution of this Base Prospectus or any Final Terms and other offering material relating to the Notes, see "*Subscription and Sale*". In particular, the Notes have not been and will not be registered under the United States Securities Act of 1933 (as amended) (the "**Securities Act**") and may include Bearer Notes (as defined herein) that are subject to U.S. tax law requirements. The Notes may not be offered or sold in the United States or to, or for the account or benefit of, U.S. persons except pursuant to an exemption from such registration. In addition, subject to certain exceptions, Bearer Notes may not be offered, sold or delivered within the United States or to, or for the account or benefit of, U.S. persons (as defined in the U.S. Internal Revenue Code of 1986, as amended (the "**Code**")).

Neither this Base Prospectus nor any Final Terms constitutes an offer or an invitation to subscribe for or purchase any Notes and should not be considered as a recommendation by the Issuer, the Dealers or any of them that any recipient of this Base Prospectus or any Final Terms should subscribe for or purchase any Notes. Each recipient of this Base Prospectus or any Final Terms shall be taken to have made its own investigation and appraisal of the condition (financial or otherwise) of the Issuer.

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (a) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained (or incorporated by reference) in this Base Prospectus or any applicable supplement;
- (b) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (c) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- (d) understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets; and
- (e) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

Programme limit

The maximum aggregate principal amount of Notes outstanding at any one time under the Programme will not exceed EUR 3,000,000,000 (and for this purpose, any Notes denominated in another currency shall be translated into EUR at the date of the agreement to issue such Notes (calculated in accordance with the provisions of the Dealer Agreement). The maximum aggregate principal amount of Notes which may be outstanding at any one time under the Programme may be increased from time to time, subject to compliance with the relevant provisions of the Dealer Agreement as defined under "*Subscription and Sale*".

Whether or not each credit rating applied in relation to a relevant Tranche of Notes will be (1) issued by a credit rating agency established in the EEA and registered under the CRA Regulation, or (2) issued by a credit rating agency which is not established in the EEA but will be endorsed by a CRA which is established in the EEA and registered under the CRA Regulation or (3) issued by a credit rating agency which is not established in the EEA but which is certified under the CRA Regulation will be disclosed in the Final Terms.

Stabilisation

In connection with the issue of any Tranche of Notes, the Dealer or Dealers (if any) named as the Stabilising Manager(s) (or persons acting on behalf of any Stabilising Manager(s)) in the applicable Final Terms may over allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. RISK FACTORS

Any investment in the Notes is subject to a number of risks. Prior to investing in the Notes, prospective investors should carefully consider the risk factors associated with any investment in the Notes, the business of Hemsö and the industry in which it operates together with all other information contained in this Base Prospectus, including, in particular, the risk factors described below. Words and expressions defined in the "Terms and Conditions of the Notes" below or elsewhere in this Base Prospectus have the same meanings in this section.

In purchasing Notes, investors assume the risk that Hemsö may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in Hemsö becoming unable to make all payments due. It is not possible to identify all such factors or to determine which factors are most likely to occur, as Hemsö may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material as a result of the occurrence of events outside Hemsö's control. Hemsö has identified in this Base Prospectus a number of factors which could materially adversely affect its business and ability to make payments due.

In addition, factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.

Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making any investment decision.

FACTORS THAT MAY AFFECT HEMSÖ'S ABILITY TO FULFIL ITS OBLIGATIONS UNDER NOTES ISSUED UNDER THE PROGRAMME

Industry and business-related risks

Risks related to macroeconomic factors

The property industry, and therefore Hemsö, is affected to a large extent by macroeconomic factors such as general economic trends, growth, employment, the rate of production of new housing and commercial premises, changes in infrastructure, population growth, inflation and interest rate levels. Growth in the economy affects the employment level, which is an important factor for demand for properties and payment capability on the part of tenants. The occupancy rate and rent level for Hemsö's properties are influenced primarily by long-term demand for properties for use by public sector tenants. In addition, Hemsö's ability to find suitable tenants may be impacted by any change in Swedish Government policy with respect to the procurement of public services. Hemsö's ability to ensure rent levels that are competitive and secure in the long-term, long leases, and low vacancy rates depends, among other things, on the possibility to adapt the properties to the tenants' changing needs in terms of quality, functionality and size.

The majority of Hemsö's leases include a supplement based on changes in the Consumer Price Index (CPI) in addition to base rent, i.e. they are wholly or partially linked to inflation. If Hemsö's costs increase by more than the compensation obtained through such supplements, this may have a material adverse impact on Hemsö's earnings. Furthermore, certain leases are index-linked downwards, which provides potential for Hemsö's rental income to decrease. Hemsö's costs are also affected by inflation and there is a risk that Hemsö will not always be able to secure leases that provide full or partial compensation for inflation.

A downturn in the economy, changed demands from tenants, lower rental levels, higher vacancy rates, higher interest rates and increased costs may have a material adverse impact on Hemsö's operations, financial position and earnings.

Variations in supply and demand in the property market could have a material adverse impact on Hemsö's business

Supply and demand for properties, and therefore the yield on property investments, varies between different geographic markets and property categories, and can thus develop differently within such geographic markets and property categories. There is a risk that demand will fall and the yield requirement will therefore increase within those geographic markets and property categories in which Hemsö operates. This may have a material adverse impact on Hemsö's operations, financial position and earnings.

Competitive threats to Hemsö's business

Hemsö operates in an industry which is exposed to competition. Hemsö's future ability to compete will depend, among other things, on Hemsö's ability to foresee future changes and react promptly to current and future market needs and/or changes in the Swedish Government's policy with respect to the procurement of public services. Accordingly, Hemsö may be forced to make costly investments, restructurings or price reductions in order to adapt to a changed competitive situation, for example through the renegotiation of lease terms. There is a risk that Hemsö will not be able to successfully counteract the effects of competition, which may have a material adverse impact on its operations, financial position and earnings.

Hemsö's income is dependent on tenants meeting their rental obligations

Hemsö's income primarily comprises rental income from its properties. There is a risk that Hemsö's major tenants will not renew or extend their leases as they expire. There is also a risk that it will not be possible to find new tenants, or that new tenants will not pay the same rents as the previous tenants, which may result in a higher vacancy rate and lower rental income. Community services are operated from Hemsö's properties and most of the rental income derives from public sector tenants or from tenants who run publicly funded activities on behalf of the Swedish Government, county councils or municipalities. Despite the fact that almost all of Hemsö's tenants conduct publicly funded activities and have a high credit rating, there is a risk of tenants failing to pay rents or otherwise failing to perform their obligations to Hemsö. If this occurs, it may lead to lower rental income and bad debt losses. If tenants fail to perform their obligations at all, for example in the event of bankruptcy, or only after debt collection measures have been taken, this may also result in an increased vacancy rate, with lower property values as a consequence. If tenants fail to renew or extend their leases as they expire, or fail to pay agreed rents on time or otherwise fail to perform their obligations, this may have a material adverse impact on Hemsö's operations, financial position and earnings.

As at 31 December 2016, Hemsö's 20 largest tenants accounted for 51.2 per cent. of the total rental value, of which the largest (the Swedish Police Authority) accounted for 5.6 per cent. There is a risk that one or more of Hemsö's more major tenants will fail to renew or extend their leases as they expire. Unless Hemsö is able to obtain replacement income from new tenants, this may lead to a reduction in rental income and/or higher vacancy rates, which may have a material adverse impact on Hemsö's operations, financial position and earnings.

Increasing operating and maintenance costs may affect Hemsö's financial position

Hemsö's operating expenses mainly comprise tariff-based costs such as costs for heating, electricity, water and waste. There are a limited number of suppliers in respect of some of these utilities and services, which could result in an increased cost to Hemsö. Notwithstanding that some of Hemsö's leases are structured in such a manner that the tenant defrays most of these costs, there may be a material adverse impact on Hemsö's operations, financial position and earnings to the extent that it is not possible to receive increased rental payments to cover for any such increased costs incurred by Hemsö.

Measures aimed at maintaining the standard of Hemsö's properties in the long-term or maintaining and/or modernising properties require maintenance and renovation expenditures. Such expenditures as are necessary to satisfy market, public authority or other legal requirements may be significant and unforeseen. There is a risk that, in respect of large-scale operating expenses, maintenance or renovation work, it may not be possible to (i) pass on the associated costs to Hemsö's tenants through increased rents or (ii) receive compensation through insurance indemnification. This may have a material adverse impact on Hemsö's operations, financial position and earnings.

Defects in Hemsö's properties may result in unforeseen costs

There are risks associated with the technical operation of properties, such as the risk of structural defects, other latent defects or deficiencies, damage (for example, through fire or other forces of nature) and contamination. Although Hemsö seeks to invest in properties of a sound technical standard, there remains a risk that unforeseen costs could arise. In the event that such technical problems arise and the costs cannot be fully or partially covered by insurance, this may have a material adverse impact on Hemsö's operations, financial position and earnings.

System failures and internal deficiencies may expose Hemsö to operating risk

The term operating risk refers mainly to the risk of financial consequences and consequences related to the loss of trust which ensue from shortcomings in internal routines and systems, including IT systems. The risk also includes legal risks and risks within regulatory compliance. The handling of operating risks is aimed at identifying, assessing, monitoring and reducing those risks. The risks are handled based on the expected consequences and the degree of probability that they could occur. Internal directives and guidelines form the basis of risk management within Hemsö. Corporate culture is critical in ensuring that internal controls are a normal and necessary operating prerequisite. Hemsö's assets are insured in line with the assessed insurance requirements.

Failure to properly manage these risks may have a material adverse effect on Hemsö's business which could adversely affect Hemsö's operations, financial position and earnings.

Property valuation relies on factors which are subject to change

Hemsö is exposed to changes in the market value of its property portfolio. Hemsö reports its property holdings at fair value in accordance with IAS 40 *Investment Property*, such that the book value in respect of the properties of Hemsö and its subsidiaries (together, the "**Group**") corresponds to their assessed market value. Hemsö uses an internal valuation process to assess the market value of its properties. In addition to this internal valuation, an external valuation is also carried out each year by an independent firm of appraisers. The value of the properties is affected by, and any assessment made in the light of, a number of factors such as market supply, vacancy rate, rent level and operating expenses, residual value, yield requirement, general economic trends, interest rates and inflation. Whilst the liquidity of such properties has increased over recent years, there is no guarantee that there will be a market for such properties going forward. There is a risk that changes in respect of such factors may have a negative affect on property values. This could have a material adverse impact on Hemsö's credit rating, financial position and earnings.

Property transactions involve uncertainties which could adversely impact Hemsö's business

Property transactions represent an important part of Hemsö's day-to-day business operations and will continue to constitute a part of Hemsö's growth strategy going forward. Property transactions entail inherent risks concerning uncertainties and there is a risk that Hemsö may be (i) unable to find suitable acquisition properties, (ii) unable to finance property acquisitions on terms acceptable to Hemsö or (iii) that desired property sales cannot be completed on terms acceptable to Hemsö. All property investments are associated with uncertainty and assumptions. The market's yield requirement, future vacancies, the tenants' payment capability, environmental conditions as well as technical defects constitute some of the uncertainty elements associated with property transactions. There is a risk that Hemsö may fail to complete property transactions, which may have a material adverse impact on Hemsö's operations, financial position and earnings.

In addition, property-owning and property-acquiring companies are exposed to risks in relation to non-identified risks linked to businesses that are acquired, either because of a lack of information or due to the fact that assumptions made may turn out to be erroneous. For example, tenants may be lost, the accounts of the acquired business may be erroneous and/or the business may be the subject of unforeseen environmental or tax claims. Furthermore, other circumstances may exist that have an adverse impact on the value of the business or property being acquired. Notwithstanding the fact that, prior to each investment, Hemsö makes an evaluation aimed at identifying and, if possible, mitigating the risks that may be associated with the investment, there remains a risk that future businesses or properties that are added through acquisitions may have a material adverse impact on Hemsö's operations, financial position and earnings.

In several of the sales agreements entered into by Hemsö, the purchaser may present warranty claims, such as that the property's use has deviated from an applicable zoning plan in violation of stipulated warranties; that, contrary to stipulated warranties, all charges relating to road construction/ maintenance costs and connection fees relating to the period prior to the completion date have not been paid in full; or that, contrary to stipulated warranties concerning the property, a public authority order to take measures has not been performed in full prior to the completion date. While there have not been any material unsettled warranty claims with respect to sold properties and companies in the last few years, there is a risk that any claims in the future may have a material adverse impact on Hemsö's business, financial position and earnings. Correspondingly, there is a risk that the possibility of obtaining compensation in the case of a warranty claim will be limited if an acquisition was made from a vendor which is, or will be, in financial difficulties or if there is a cap in respect of the amount

of compensation that may be claimed – this may contribute to increased uncertainty and increased costs for Hemsö, which in turn may have a material adverse impact on its operations, financial position and earnings.

Project development poses risks to Hemsö

The construction, refurbishment and extension of properties constitutes a part of Hemsö's regular business operations. Project development is inherently associated with uncertainties and risks as regards costs and delays (among other things). Major projects can involve significant investments, which may lead to an increased credit risk if tenants fail to perform their obligations to pay rent and Hemsö is unable to find other tenants for the premises in question, if Hemsö fails to let the premises upon completion of a project, or if the demand or price of properties generally changes during the course of a project. Furthermore, although Hemsö monitors development projects closely, projects may be delayed, become more expensive or the quality may not be as expected, which may result in increased costs or reduced income. In addition, Hemsö may be dependent on procuring the necessary public authority permits and permits for carrying out property development projects. There is a risk that Hemsö will not succeed in implementing its property projects, which may have a material adverse impact on its operations, financial position and earnings.

Hemsö has no direct control over jointly-owned companies

In addition to the Group's wholly-owned subsidiaries, Hemsö holds stakes in a number of companies. Among other things, Hemsö holds 50 per cent. of the shares and voting rights in the following project development companies: TKV 2 Fastighets AB and Vitartes AB with its subsidiaries. The remaining shares are owned by SveaNor Holding AB. Hemsö has no exclusive right of decision-making over these companies and is not able, alone, to ensure that investments or divestments of properties in these companies take place in accordance with Hemsö's requirements. There is a risk that property development in these companies will be carried out in a manner that is detrimental to Hemsö, which may have a material adverse impact on Hemsö's operations, financial position and earnings.

Business disruptions and operational shortcomings may cause Hemsö to incur losses

All operational activities are associated with the risk of incurring losses due to deficient routines and/or the business being detrimentally affected by disruptions caused by shortcomings or internal or external events. Operational certainty, achieved through sound internal control, appropriate administrative systems and access to reliable valuation and risk models, is required to mitigate such risks and reduce the risk to Hemsö's administrative security and control. However, business disruptions and shortcomings in operational security may have a material adverse impact on Hemsö's operations, financial position and earnings.

Loss of key personnel may undermine Hemsö's operations

Hemsö's business is dependent on experienced employees possessing relevant skills. Such key individuals are included among senior executives as well as the Group's employees in general. There may be a risk that, over time, Hemsö is unable to retain or recruit qualified personnel to the desired extent. Any disruption caused by the departure of one or more key individuals may have a material adverse impact on Hemsö's operations, financial position and earnings.

Hemsö could incur losses not covered by, or exceeding the coverage limits of, its insurance

Hemsö's management believes that its risks are covered by appropriate insurance coverage in line with market practice. Hemsö has insurance policies, for example, in respect of property, business interruption and liability for damages. However, the actual losses suffered by Hemsö could exceed its insurance coverage and could be material. The realisation of one or more damaging events for which Hemsö has no insurance coverage or for which Hemsö's insurance coverage is insufficient could have a material adverse effect on Hemsö's business, financial condition and results of operations.

Interests of Hemsö's shareholders may conflict with those of the holders of the Notes

The interests of Hemsö's shareholders, in certain circumstances, may conflict with those of the holders of the Notes, particularly if Hemsö encounters financial difficulties or is unable to pay its debts when due. In addition, Hemsö's shareholders may have an interest in pursuing acquisitions, divestitures, financings or other transactions that, in their judgment, could enhance their equity investments, even though such transactions might

involve risks to the holders of the Notes. Any of these actions could have an adverse effect on Hemsö's operations, financial position, earnings and future prospects.

Credit ratings assigned to Hemsö or any Notes may not reflect all the risks associated with an investment in those Notes.

One or more independent credit rating agencies may assign credit ratings to the Issuer or the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised, suspended or withdrawn by the rating agency at any time.

In general, European regulated investors are restricted under the CRA Regulation from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances whilst the registration application is pending. Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended). The list of registered and certified rating agencies published by the European Securities and Markets Authority (ESMA) on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list. Certain information with respect to the credit rating agencies and ratings is set out on the cover of this Base Prospectus.

Hemsö has a holding company structure in which its subsidiaries conduct its operations and own nearly all its properties

Hemsö has no significant assets other than the equity interests in its subsidiaries. As a result, Hemsö's ability to make required payments under the Notes depends on the performance of its subsidiaries and their ability to distribute funds to it. Such cash flows will depend on the business and financial conditions of its subsidiaries. In addition, the ability of certain subsidiaries to pay dividends and distributions may be limited by applicable laws and any indebtedness those subsidiaries have incurred. Equally, if Hemsö's subsidiaries do not pay any dividends or distributions, or do so irregularly, the Group's performance may be adversely affected.

Further, Hemsö's right to receive payment of provided financing from the liquidation of one of its subsidiaries, and therefore the right of Noteholders to participate in those proceeds, will be structurally subordinated to the claims of other creditors of that subsidiary. In addition, even if Hemsö is a creditor of any of its subsidiaries, its rights as a creditor would be subordinated to any existing security interest in the assets of such subsidiary.

Legal risks

Changes in legislation may adversely affect Hemsö's business

The majority of Hemsö's tenants engage in publicly funded activities on behalf of the Swedish Government, municipalities or county councils, and Hemsö's operations are highly dependent on decisions and requirements of public authorities as regards, among other things, property ownership, letting, rent levels, maintenance and operation. New or amended laws and regulations, or changes in the application of existing laws and regulations governing the operations of Hemsö or its tenants. For example, property-related decisions made by public authorities or, alternatively in the event that public authorities make assessments which differ from those of Hemsö or its tenants regarding licence requirements, health and safety requirements, obligatory permits or other commercial law requirements, may have a material adverse impact on Hemsö's operations, financial position and earnings.

In October 2014, the Swedish Government publicly announced that it intended to establish one or more committee enquiries into the Swedish welfare sector (Dir. 2015:22) (the "Welfare Service Investigation" (*Välfärdsutredningen*)). According to the committee's terms of reference, which were published on 5 March 2015, the committee shall, among other things, study and present proposals concerning the way in which the rules governing public funds for the operation of publicly funded welfare services should be structured so that funds benefit the users and surpluses are channelled back to the activity, as a general rule. The Welfare Service

Investigation has resulted in an interim report, SOU 2016:78 (*Ordning och reda i välfärden*), which was presented in November 2016. The interim report proposes, among other things, that private operators in the welfare and education sector whose operations receive public funding must hold a permit from the Swedish Health and Social Care Inspectorate (*Inspektionen för vård och omsorg*) or the Swedish School Inspectorate (*Skolinspektionen*) (as applicable) in order to engage in such operations. The interim report also proposes testing management and owners with significant influence with respect to a specific set of parameters to assess their understanding of the rules and regulations necessary to carry out the activities that require a permit and ensure that they are otherwise suitable to represent/own the business. The interim report further proposes implementation of certain limitations in operating profit in respect of private operators that engage in publicly funded businesses that require a permit (as described above). Under the proposal, a cap would be imposed to limit operating profit to an amount equal to the government borrowing rate (*statslåneräntan*) plus 7 per cent, multiplied with the net working capital of the relevant entity. The interim report proposes that the proposed regulatory changes shall enter into force from 1 July 2018. The Welfare Service Investigation presented its final report, SOU 2017:38 (*Kvalitet i välfärden – bättre upphandling och uppföljning*) on 9 May 2017, in which no change was made to the proposals in the interim report described above. In the event that legislative requirements or other regulatory changes as described above are introduced which limit the possibility of conducting private welfare services that are publicly funded or increase the costs for regulatory compliance, some of Hemsö's tenants may limit or entirely cease their activities, which may have a material adverse impact on Hemsö's operations, financial position and earnings.

There is also a risk that legislative requirements will be introduced that restrict private property owners from owning and managing properties for public use, which may also have a material adverse impact on Hemsö's operations, financial position and earnings.

Hemsö is subject to future possible change in tax laws and regulations

Hemsö conducts operations in several jurisdictions. Hemsö's operations are affected by the applicable corporation tax, value added tax and property tax rules in force from time to time in those jurisdictions in which it operates. This is also the case as regards other governmental and municipal charges and contributions. Notwithstanding that Hemsö's operations are conducted in accordance with Hemsö's interpretation of applicable laws and rules in the tax area, there is a risk that its interpretation is incorrect or that applicable tax law and rules may be amended with possible retroactive effect. In addition, future changes to applicable tax laws and rules may affect the conditions for Hemsö's operations, financial position and earnings.

In this context, it should specifically be noted that it is expected that new limitations on deductibility of interest expenses from taxation (based on Directive 216/1164) will be introduced. However, it is still unclear exactly when such a proposal will be presented and the exact scope and timing of the implementation of such change (if any) is also unclear. In addition, a proposal was presented on 30 March 2017 to amend certain tax rules specifically addressing the tax situation in the real estate sector (SOU 2017:27). The main element of this proposal is to remove the tax exemption from divestments of properties through share deals (such transactions would instead generally be treated for tax purposes in the same manner as a direct sale of a property). If the proposal is implemented, the difference between the market value and the tax residual value of a property would thus be subject to corporate income tax. In addition, a cost corresponding to the stamp duty on a direct sale of a property would also materialise in the form of a notional income even if the property is not sold directly but only indirectly through the selling of shares in the company owning the property. Separately, the stamp duty would be decreased from the current rate of 4.25 per cent. to 2 per cent. for legal entities. Nevertheless, the overall tax burden on Hemsö would increase as a result of such proposals, if implemented. It is proposed that the new rules shall enter into force on 1 July 2018. Since this proposal has only recently been published it is at this stage difficult to predict if it will ultimately be enacted and/or if any adjustments will be made to it (for example, in relation to when it will enter into force). Swedish tax legislation might also be affected by progress in relation to the Base Erosion and Profit Shifting (BEPS) Action Plan, a project launched by the OECD, which aims to achieve increased tax harmonisation between jurisdictions, and which may affect Hemsö's tax situation.

In the event that any of the above-mentioned proposals or projects would be implemented and/or result in legislation, or if changes take place in tax legislation or case law, this may result in a change in Hemsö's tax situation, which may have a material adverse impact on Hemsö's operations, financial position and earnings.

The Swedish Tax Agency may not agree with Hemsö's previous tax assessment decisions

The Swedish Tax Agency carries out regular tax assessment audits of companies. There is a risk that, in conjunction with a tax assessment audit, the Swedish Tax Agency will not share Hemsö's opinion regarding, for example, the right of deduction, possibilities for tax write-offs, or the ability to use loss carry-forwards. Such a different opinion by the Swedish Tax Agency may have a material adverse impact on Hemsö's operations, financial position and earnings.

Disputes and legal proceedings could have a material adverse effect on Hemsö

This risk relates to the costs that the Group may incur as a consequence of conducting legal proceedings, settlement costs, as well as costs in respect of awarded damages and other obligations which may be imposed on Hemsö. Companies within the Group may, from time to time, become involved in disputes within the scope of normal business operations and run the risk, similarly to other companies within Hemsö's industry, of being the subject of claims with respect to, for example, contractual issues, warranty claims, alleged errors in the provision of services, environmental issues and intellectual property rights. Such disputes and claims may be time-consuming, disrupt normal operations, involve large amounts, detrimentally affect customer relations and result in significant costs. In the event such disputes arise and Hemsö is held liable in damages or enters into a settlement agreement, there is a risk that claims will not be covered in full by Hemsö's insurance. In addition, the outcome of complicated disputes may be difficult to predict. Potential disputes and legal proceedings brought against Hemsö may have a material adverse impact on Hemsö's operations, financial position and earnings.

Environmental risks

Properties affect the environment through their construction, on-going maintenance and through the activities conducted within them. According to the Swedish Environmental Code (*Miljöbalken (SFS 1998:808)*), persons who pursue activities that have contributed to contamination are responsible for remedying any harm caused. In Hemsö's case, it would be its tenants who are pursuing such activities. However, if the person pursuing the activity is unable to carry out or defray the cost of remediation, responsibility for the after-treatment is imposed on the party that acquired the property and, at the time of the acquisition, was aware or should have been aware of the contamination. Accordingly, there is a risk that in certain circumstances claims may be brought against Hemsö for the clean-up of contamination that has taken place, in order to restore properties to a condition that complies with the Environmental Code. In the event such liability is imposed on Hemsö, it may have a material adverse impact on its operations, financial position and earnings.

Hemsö may have to defend, and may lose, the right to use its trademark

Recognition of the Hemsö's trademarks and business names, and their positive reputation, have contributed to Hemsö's success. Hemsö has sought to protect its trademarks through trademark registration. There is a risk that a third party may challenge the validity of such registrations or Hemsö's right to use its distinctive marks. Defending itself in proceedings regarding the validity of distinctive marks or registrations may be costly and, in the event Hemsö is required to cease using its business names or valuable trademarks, this may have a material adverse impact on Hemsö's operations, financial position and earnings.

Financial risks

Fluctuations in market interest rates and loan margins may adversely affect Hemsö's business

Hemsö's operations are primarily financed through equity and interest-bearing debts. Interest expenses represent Hemsö's individual largest cost item. As a consequence, Hemsö is exposed to the risk of changes in market interest rates and loan margins. The risk is also affected by the strategy Hemsö chooses in respect of fixed-interest periods. Increased interest expenses may have a material adverse impact on Hemsö's operations, financial position and earnings.

Changes in the value of financial derivative instruments may result in losses for Hemsö

Hemsö has a large number of loans with short fixed-interest periods and uses interest rate derivatives (mainly interest rate swaps) as an element in the management of interest-rate risk. Interest rate derivatives are regularly reported at fair value in the balance sheet, with changes in value being reported in the income statement. In the

event that market rates fall, the market value of Hemsö's interest rate derivatives will decrease, which may have a material adverse impact on Hemsö's operations, financial position and earnings.

Hemsö is exposed to credit and counterparty risk

There is a risk that Hemsö's counterparties within its financing operations will fail to perform their financial obligations to Hemsö. Hemsö's financing activities include, among other things, the execution of long and short-term loan agreements, the execution of interest rate derivatives, as well as the investment of liquidity surpluses through the execution of long and short-term loan agreements. There is a risk that Hemsö's counterparties will fail to perform their financial obligations to Hemsö, which may have a material adverse impact on Hemsö's operations, financial position and earnings.

Hemsö may not be able to refinance its existing loans on competitive terms or at all

External borrowing accounts for a large part of Hemsö's supply of capital. As these loans mature, they must be repaid, extended or renewed. The conditions for Hemsö refinancing loan facilities as they expire depend on access to financing at the time and Hemsö's financial position. In the event that Hemsö is unable to secure refinancing or can only obtain refinancing at substantially increased costs, this may have a material adverse impact on Hemsö's operations, financial position and earnings.

A change in the controlling ownership of Hemsö could result in the requirement for Hemsö to repay under the terms of its existing financing agreements and Notes issued under the Programme and adversely affect its ability to secure subsequent refinancing

If, for whatever reason, the Third Swedish National Pension Fund was to reduce its holding in Hemsö, this could result in control of Hemsö passing to another shareholder. Such a change in controlling ownership could affect the general perception of Hemsö, which could entail, among other things, a changed credit rating, and may possibly trigger terms in loan agreements that result in the termination of such agreements or a need to renegotiate them. Such a provision is included in Hemsö's domestic MTN programme (the **Domestic MTN Programme**), the majority of loan agreements in place with lenders and the Programme. In the event of a change in controlling ownership, Hemsö's ability to secure refinancing may be adversely affected, which could indirectly affect the Group's ownership of properties and therefore have a material adverse impact on the Group's operations, earnings and financial position.

The Terms and Conditions of the notes issued under the Domestic MTN Programme stipulate that Noteholders are entitled to early redemption if one or more Swedish National Pension Funds cease, individually or jointly, directly or indirectly, to own shares representing more than 50 per cent. of the voting capital in Hemsö. For Notes issued under the Programme, there is a similar provision set out at Condition 9(f) of the Terms and Conditions of the Notes, which provides for a change of control where one or more persons acting together acquire shares representing more than 50 per cent. of the voting capital in Hemsö and includes the added requirement for a downgrade in Hemsö's credit rating following the relevant change of control before Noteholders are entitled to early redemption. Given this difference in the change of control event and the additional credit rating downgrade requirement, there is a risk to Noteholders that creditors under existing financings may exercise their right to repayment ahead of Noteholders in the event that the change of control under the Programme is not triggered or there has not been a credit rating downgrade following a change in controlling ownership of Hemsö. This could result in the claim for repayment by Noteholders on a subsequent winding up of Hemsö being prejudiced as other unsecured creditors under existing financings may have been repaid prior to the Noteholders' claim, thereby reducing the assets available to Hemsö to satisfy such claim by the Noteholders.

Breach of financial covenants may lead to Hemsö's creditors accelerating its loans

Hemsö's bank loan agreements usually include both financial and other covenants. Such covenants may, for example, relate to an interest-coverage ratio or loan volumes relative to the fair value of Hemsö's properties. In addition, the majority of the financing agreements entitle the lenders to accelerate repayment of the loan in the event that the Third Swedish National Pension Fund's direct or indirect ownership represents less than 50.1 per cent. (51 per cent. in the case of certain agreements) of the voting rights in Hemsö.

As security for bank loans, Hemsö may grant mortgages over certain properties or security interests in intragroup claims against subsidiaries, or Hemsö may issue shares in its subsidiaries, partnerships or limited partnerships, or demand guarantees.

In the event that Hemsö breaches its financial covenants in a loan agreement, or in the event that the Third Swedish National Pension Fund's direct or indirect ownership stake falls to below the required percentages stated in loan agreements, this may lead to the acceleration of loans or to credit institutions having recourse to pledged assets, which may have a material adverse impact on Hemsö's operations, financial position and earnings.

Major unforeseen payment obligations may impact on Hemsö's liquidity

Hemsö's payment obligations primarily comprise operating expenses, such as costs for heating, electricity, water and refuse collection, agreed maintenance charges, investments in project development and other investments, as well as interest on, and the repayment of, debts. Major payment obligations may arise in conjunction with the refinancing of loans in the event that lenders demand a lower loan-to-value ratio or if the relevant property falls in value following the drawing of the relevant loan by Hemsö. Major unforeseen payment obligations may also arise, and there remains a possibility of non-payment to Hemsö of large rent amounts. There is a risk that Hemsö's liquidity will be insufficient to cover the performance of its payment obligations, which may have a material adverse impact on Hemsö's operations, financial position and earnings.

Movements in exchange rates may adversely affect Hemsö's business

Hemsö is exposed to currency risks as a consequence of its operations in Germany and Finland. The Swedish krona is Hemsö's reporting currency, but the Group also has revenues, expenses, assets and liabilities in currencies other than the Swedish krona. Hemsö's currency exposure is limited to the euro and relates to the properties that the Group owns in Germany and Finland. Currency exposure arises in connection with the purchase and sale of goods and services in currencies other than the local currency of Hemsö's relevant subsidiary (transaction exposure), and the translation into Swedish kronor of the balance sheets and income statements of the relevant foreign subsidiaries that are reported in foreign currency (translation exposure). Accordingly Hemsö is exposed to exchange rates movements that could affect its income statement and balance sheet, which may have a material adverse impact on Hemsö's operations, financial position and earnings.

Risks related to the structure of a particular issue of Notes

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of the most common such features:

Notes subject to optional redemption by the Issuer

An optional redemption feature of Notes is likely to limit their market value. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This may also be true prior to any redemption period. The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that converts from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Where the Issuer has the right to effect such a conversion, this will affect the secondary market and the market value of the Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate in such circumstances, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the Issuer converts from a floating rate to a fixed rate in such circumstances, the fixed rate may be lower than then prevailing market rates.

Notes issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

In respect of any Notes issued with a specific use of proceeds, such as a Sustainable Bond, there can be no assurance that such use of proceeds will be suitable for the investment criteria of an investor

The Final Terms relating to any specific Tranche of Notes may provide that it will be the Issuer's intention to apply the proceeds from an offer of those Notes specifically for projects and activities that promote climate-friendly and/or other environmental purposes (either in those words or otherwise) ("**Sustainable Projects**"). Prospective investors should have regard to the information in the relevant Final Terms regarding such use of proceeds and must determine for themselves the relevance of such information for the purpose of any investment in such Notes together with any other investigation such investor deems necessary. In particular no assurance is given by the Issuer that the use of such proceeds for any Sustainable Projects will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates (in particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses, the subject of or related to, the relevant Sustainable Project). Furthermore, it should be noted that there is currently no clearly defined definition (legal, regulatory or otherwise) of, nor market consensus as to what constitutes, a "green" or "sustainable" or an equivalently-labelled project or as to what precise attributes are required for a particular project to be defined as "green" or "sustainable" or such other equivalent label nor can any assurance be given that such a clear definition or consensus will develop over time. Accordingly, no assurance is or can be given to investors that any projects or uses the subject of, or related to, any Sustainable Projects will meet any or all investor expectations regarding such "green", "sustainable" or other equivalently-labelled performance objectives or that any adverse environmental, social and/or other impacts will not occur during the implementation of any projects or uses the subject of, or related to, any Sustainable Projects.

No assurance or representation is given as to the suitability or reliability for any purpose whatsoever of any opinion or certification of any third party (whether or not solicited by the Issuer) which may be made available in connection with the issue of any Notes and in particular with any Sustainable Projects to fulfil any environmental, sustainability, social and/or other criteria. For the avoidance of doubt, any such opinion or certification is not, nor shall be deemed to be, incorporated in and/or form part of this Base Prospectus. Any such opinion or certification is not, nor should be deemed to be, a recommendation by the Issuer or any other person to buy, sell or hold any such Notes. Any such opinion or certification is only current as of the date that such opinion was initially issued. Prospective investors must determine for themselves the relevance of any such opinion or certification and/or the information contained therein and/or the provider of such opinion or certification for the purpose of any investment in such Notes. Currently, the providers of such opinions and certifications are not subject to any specific regulatory or other regime or oversight.

In the event that any such Notes are listed or admitted to trading on any dedicated "green", "environmental", "sustainable" or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), no representation or assurance is given by the Issuer or any other person that such listing or admission satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses, the subject of or related to, any Sustainable Projects. Furthermore, it should be noted that the criteria for any such listings or admission to trading may vary from one stock exchange or securities market to another. Nor is any representation or assurance given or made by the Issuer or any other person that any such listing or admission to trading will be obtained in respect of any such Notes or, if obtained, that any such listing or admission to trading will be maintained during the life of the Notes.

While it is the intention of the Issuer to apply the proceeds of any Notes so specified for Sustainable Projects in, or substantially in, the manner described in the relevant Final Terms, there can be no assurance that the relevant intended project(s) or use(s) the subject of, or related to, any Sustainable Projects will be capable of being implemented in or substantially in such manner and/or in accordance with any timing schedule and that accordingly such proceeds will be totally disbursed for the specified Sustainable Projects. Nor can there be any

assurance that such Sustainable Projects will be completed within any specified period or at all or with the results or outcome (whether or not related to the environment) as originally expected or anticipated by the Issuer. Any such event or failure by the Issuer will not constitute an Event of Default under the Notes.

Any such event or failure to apply the proceeds of any issue of Notes for any Sustainable Projects as aforesaid and/or withdrawal of any such opinion or certification or any such opinion or certification attesting that the Issuer is not complying in whole or in part with any matters for which such opinion or certification is opining or certifying on and/or any such Notes no longer being listed or admitted to trading on any stock exchange or securities market as aforesaid may have a material adverse effect on the value of such Notes and also potentially the value of any other Notes which are intended to finance Sustainable Projects and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

Risks related to Notes generally

Set out below is a brief description of certain risks relating to the Notes generally:

Modification and waivers

The Conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

Change of law

The conditions of the Notes are based on English law in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice after the date of this Base Prospectus.

Bearer Notes where denominations involve integral multiples: definitive Bearer Notes

In relation to any issue of bearer Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in its account with the relevant clearing system at the relevant time may not receive a definitive bearer Note in respect of such holding (should definitive bearer Notes be printed) and would need to purchase a principal amount of Notes such that its holding amounts to a Specified Denomination. Further, a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time may not receive a definitive Note in respect of such holding (should definitive Notes be printed or issued) and would need to purchase a principal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination. If definitive bearer Notes are issued, holders should be aware that definitive bearer Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

Risks related to the market generally

Set out below is a brief description of the principal market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk:

The secondary market generally

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a material adverse effect on the market value of Notes.

Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency equivalent yield on the Notes, (2) the Investor's Currency equivalent value of the principal payable on the Notes and (3) the Investor's Currency equivalent market value of the Notes. Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Interest rate risks

Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Notes.

Credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

In general, European regulated investors are restricted under the CRA Regulation from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the CRA Regulation (and such registration has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances whilst the registration application is pending). Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended). The list of registered and certified rating agencies published by the European Securities and Markets Authority ("**ESMA**") on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list. Certain information with respect to the credit rating agencies and ratings is set out on the cover of this Base Prospectus.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

such Note divided by the Calculation Amount. For this purpose a "**sub-unit**" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

- (a) *Application:* This Condition 7 (*Floating Rate Note Provisions*) is applicable to the Notes only if the Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable.
- (b) *Accrual of interest:* The Notes bear interest from the Interest Commencement Date at the Rate of Interest payable in arrear on each Interest Payment Date, subject as provided in Condition 10 (*Payments – Bearer Notes*). Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation, payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition (as well after as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment).
- (c) *Screen Rate Determination:* If Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be determined by the Calculation Agent on the following basis:
- (i) if the Reference Rate is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
 - (ii) if Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Final Terms, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight-line linear interpolation by reference to two rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date, where:
 - (A) one rate shall be determined as if the relevant Interest Period were the period of time for which rates are available next shorter than the length of the relevant Interest Period; and
 - (B) the other rate shall be determined as if the relevant Interest Period were the period of time for which rates are available next longer than the length of the relevant Interest Period;

provided, however, that if no rate is available for a period of time next shorter or, as the case may be, next longer than the length of the relevant Interest Period, then the Calculation Agent shall determine such rate at such time and by reference to such sources as it determines appropriate;
 - (iii) in any other case, the Calculation Agent, in consultation with the Issuer, will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
 - (iv) if, in the case of (i) above, such rate does not appear on that page or, in the case of (iii) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Calculation Agent will, in consultation with the Issuer:
 - (A) request the principal Relevant Financial Centre office of each of the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Interest Determination Date to prime banks in the Relevant Financial Centre interbank market in an amount that is representative for a single transaction in that market at that time; and
 - (B) determine the arithmetic mean of such quotations; and

- (v) if fewer than two such quotations are provided as requested, the Calculation Agent, in consultation with the Issuer, will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Calculation Agent) quoted by major banks in the Principal Financial Centre of the Specified Currency, selected by the Calculation Agent, at approximately 11.00 a.m. (local time in the Principal Financial Centre of the Specified Currency) on the first day of the relevant Interest Period for loans in the Specified Currency to leading European banks for a period equal to the relevant Interest Period and in an amount that is representative for a single transaction in that market at that time,

and the Rate of Interest for such Interest Period shall be the sum of the Margin and the rate or (as the case may be) the arithmetic mean so determined; **provided, however, that** if the Calculation Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Interest Period, the Rate of Interest applicable to the Notes during such Interest Period will be the sum of the Margin and the rate or (as the case may be) the arithmetic mean last determined in relation to the Notes in respect of a preceding Interest Period.

- (d) *ISDA Determination:* If ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be the sum of the Margin and the relevant ISDA Rate where "ISDA Rate" in relation to any Interest Period means a rate equal to the Floating Rate (as defined in the ISDA Definitions) that would be determined by the Calculation Agent (which will not be the Fiscal Agent for this purpose) under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (i) the Floating Rate Option (as defined in the ISDA Definitions) is as specified in the relevant Final Terms;
- (ii) the Designated Maturity (as defined in the ISDA Definitions) is a period specified in the relevant Final Terms;
- (iii) the relevant Reset Date (as defined in the ISDA Definitions) is either (A) if the relevant Floating Rate Option is based on LIBOR for a currency, the first day of that Interest Period or (B) in any other case, as specified in the relevant Final Terms; and
- (iv) if Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Final Terms, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight-line linear interpolation by reference to two rates based on the relevant Floating Rate Option, where:
 - (A) one rate shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period; and
 - (B) the other rate shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period

provided, however, that if there is no rate available for a period of time next shorter than the length of the relevant Interest Period or, as the case may be, next longer than the length of the relevant Interest Period, then the Calculation Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

- (e) *Maximum or Minimum Rate of Interest:* If any Maximum Rate of Interest or Minimum Rate of Interest is specified in the relevant Final Terms, then the Rate of Interest shall in no event be greater than the maximum or be less than the minimum so specified.
- (f) *Calculation of Interest Amount:* The Calculation Agent will, as soon as practicable after the time at which the Rate of Interest is to be determined in relation to each Interest Period, calculate the Interest Amount payable in respect of each Note for such Interest Period. The Interest Amount will be calculated by applying the Rate of Interest for such Interest Period to the Calculation Amount, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such

rounded figure by a fraction equal to the Specified Denomination of the relevant Note divided by the Calculation Amount. For this purpose a "sub-unit" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

- (g) *Publication:* The Calculation Agent will cause each Rate of Interest and Interest Amount determined by it, together with the relevant Interest Payment Date, and any other amount(s) required to be determined by it together with any relevant payment date(s) to be notified to the Paying Agents and each competent authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation as soon as practicable after such determination but (in the case of each Rate of Interest, Interest Amount and Interest Payment Date) in any event not later than the first day of the relevant Interest Period. Notice thereof shall also promptly be given to the Noteholders. The Calculation Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant Interest Period. If the Calculation Amount is less than the minimum Specified Denomination the Calculation Agent shall not be obliged to publish each Interest Amount but instead may publish only the Calculation Amount and the Interest Amount in respect of a Note having the minimum Specified Denomination.
- (h) *Notifications etc.:* All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition by the Calculation Agent will (in the absence of manifest error) be binding on the Issuer, the Paying Agents, the Noteholders and the Couponholders and (subject as aforesaid) no liability to any such Person will attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.

(ii) if the aggregate amount of the missing Coupons is greater than the amount of principal due for payment:

(A) so many of such missing Coupons shall become void (in inverse order of maturity) as will result in the aggregate amount of the remainder of such missing Coupons (the "**Relevant Coupons**") being equal to the amount of principal due for payment; **provided, however, that** where this sub-paragraph would otherwise require a fraction of a missing Coupon to become void, such missing Coupon shall become void in its entirety; and

(B) a sum equal to the aggregate amount of the Relevant Coupons (or, if less, the amount of principal due for payment) will be deducted from the amount of principal due for payment; **provided, however, that**, if the gross amount available for payment is less than the amount of principal due for payment, the sum deducted will be that proportion of the aggregate amount of the Relevant Coupons (or, as the case may be, the amount of principal due for payment) which the gross amount actually available for payment bears to the amount of principal due for payment.

In addition, the parties to the Agency Agreement may agree to modify any provision thereof, but the Issuer shall not agree, without the consent of the Noteholders, to any such modification unless it is of a formal, minor or technical nature, it is made to correct a manifest error or it is, in the opinion of such parties, not materially prejudicial to the interests of the Noteholders.

18. **Further Issues**

The Issuer may from time to time, without the consent of the Noteholders or the Couponholders, create and issue further notes having the same terms and conditions as the Notes in all respects (or in all respects except for the first payment of interest) so as to form a single series with the Notes.

19. **Notices**

- (a) *Bearer Notes:* Notices to the Holders of Bearer Notes shall be valid if published in a leading English language daily newspaper published in London (which is expected to be the *Financial Times*) or, if such publication is not practicable, in a leading English language daily newspaper having general circulation in Europe. Any such notice shall be deemed to have been given on the date of first publication (or if required to be published in more than one newspaper, on the first date on which publication shall have been made in all the required newspapers). Couponholders shall be deemed for all purposes to have notice of the contents of any notice given to the Holders of Bearer Notes.
- (b) *Registered Notes:* Notices to the Holders of Registered Notes shall be sent to them by first class mail (or its equivalent) or (if posted to an overseas address) by airmail at their respective addresses on the Register or, if such publication is not practicable, in a leading English language daily newspaper having general circulation in Europe. Any such notice shall be deemed to have been given on the fourth day after the date of mailing.

20. **Currency Indemnity**

If any sum due from the Issuer in respect of the Notes or the Coupons or any order or judgment given or made in relation thereto has to be converted from the currency (the "**first currency**") in which the same is payable under these Conditions or such order or judgment into another currency (the "**second currency**") for the purpose of (a) making or filing a claim or proof against the Issuer, (b) obtaining an order or judgment in any court or other tribunal or (c) enforcing any order or judgment given or made in relation to the Notes, the Issuer shall indemnify each Noteholder, on the written demand of such Noteholder addressed to the Issuer and delivered to the Issuer or to the Specified Office of the Fiscal Agent, against any loss suffered as a result of any discrepancy between (i) the rate of exchange used for such purpose to convert the sum in question from the first currency into the second currency and (ii) the rate or rates of exchange at which such Noteholder may in the ordinary course of business purchase the first currency with the second currency upon receipt of a sum paid to it in satisfaction, in whole or in part, of any such order, judgment, claim or proof.

This indemnity constitutes a separate and independent obligation of the Issuer and shall give rise to a separate and independent cause of action.

21. **Rounding**

- (a) For the purposes of any calculations referred to in these Conditions (unless otherwise specified in these Conditions or the relevant Final Terms), (a) all percentages resulting from such calculations will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with 0.000005 per cent. being rounded up to 0.00001 per cent.), (b) all United States dollar amounts used in or resulting from such calculations will be rounded to the nearest cent (with one half cent being rounded up), (c) all Japanese Yen amounts used in or resulting from such calculations will be rounded downwards to the next lower whole Japanese Yen amount, and (d) all amounts denominated in any other currency used in or resulting from such calculations will be rounded to the nearest two decimal places in such currency, with 0.005 being rounded upwards.

22. **Governing Law and Jurisdiction**

- (a) *Governing law:* The Notes and any non-contractual obligations arising out of or in connection with the Notes are governed by, and construed in accordance with, English law.
- (b) *English courts:* The courts of England have exclusive jurisdiction to settle any dispute (a "**Dispute**") arising out of or in connection with the Notes (including any non-contractual obligation arising out of or in connection with the Notes).
- (c) *Appropriate forum:* The Issuer agrees that the courts of England are the most appropriate and convenient courts to settle any Dispute and, accordingly, that it will not argue to the contrary.
- (d) *Rights of the Noteholders to take proceedings outside England:* Notwithstanding Condition 22(b) (*English courts*), any Noteholder may take proceedings relating to a Dispute ("**Proceedings**") in any other courts with jurisdiction. To the extent allowed by law, Noteholders may take concurrent Proceedings in any number of jurisdictions.
- (e) *Service of process:* The Issuer agrees that the documents which start any Proceedings and any other documents required to be served in relation to those Proceedings may be served on it by being delivered to The Swedish Trade & Invest Council at 5 Upper Montagu Street, London W1H 2AG, or to such other person with an address in England or Wales and/or at such other address in England or Wales as the Issuer may specify by notice in writing to the Noteholders. Nothing in this paragraph shall affect the right of any Noteholder to serve process in any other manner permitted by law. This Condition applies to Proceedings in England and to Proceedings elsewhere.

FORM OF FINAL TERMS

[PROHIBITION OF SALES TO EEA RETAIL INVESTORS: The Notes are not intended, from 1 January 2018, to be offered, sold or otherwise made available to and, with effect from such date, should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (the "EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU ("MiFID II"); (ii) a customer within the meaning of the Insurance Mediation Directive (Directive 2002/92/EC (as amended)), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Directive. Consequently, no key information document required by Regulation (EU) No 1286/2014 (the "PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.]

FORMS OF THE NOTES

Bearer Notes

Each Tranche of Notes in bearer form ("**Bearer Notes**") will initially be in the form of either a temporary global note in bearer form (the "**Temporary Global Note**"), without interest coupons, or a permanent global note in bearer form (the "**Permanent Global Note**"), without interest coupons, in each case as specified in the relevant Final Terms. Each Temporary Global Note or, as the case may be, Permanent Global Note (each a "**Global Note**") which is not intended to be issued in new global note ("**NGN**") form, as specified in the relevant Final Terms, will be deposited on or around the issue date of the relevant Tranche of the Notes with a depositary or a common depositary for Euroclear Bank S.A./N.V. as operator of the Euroclear System ("**Euroclear**") and/or Clearstream Banking, S.A. ("**Clearstream, Luxembourg**") and/or any other relevant clearing system and each Global Note which is intended to be issued in NGN form, as specified in the relevant Final Terms, will be deposited on or around the issue date of the relevant Tranche of the Notes with a common safekeeper (the "**Common Safekeeper**") for Euroclear and/or Clearstream, Luxembourg.

On 13 June 2006 the European Central Bank (the "**ECB**") announced that Notes in NGN form are in compliance with the "*Standards for the use of EU securities settlement systems in ESCB credit operations*" of the central banking system for the euro (the "**Eurosystem**"), **provided that** certain other criteria are fulfilled. At the same time the ECB also announced that arrangements for Notes in NGN form will be offered by Euroclear and Clearstream, Luxembourg as of 30 June 2006 and that debt securities in global bearer form issued through Euroclear and Clearstream, Luxembourg after 31 December 2006 will only be eligible as collateral for Eurosystem operations if the NGN form is used.

Where the Bearer Global Notes issued in respect of any Tranche are in NGN form, the applicable Final Terms will also indicate whether such Bearer Global Notes are intended to be held in a manner which would allow Eurosystem eligibility. Any indication that the Bearer Global Notes are to be so held does not necessarily mean that the Bearer Notes of the relevant Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any times during their life as such recognition depends upon satisfaction of the Eurosystem eligibility criteria. The Common Safekeeper for NGNs will either be Euroclear or Clearstream, Luxembourg or another entity approved by Euroclear and Clearstream, Luxembourg.

In the case of each Tranche of Bearer Notes, the relevant Final Terms will also specify whether United States Treasury Regulation §1.163-5(c)(2)(i)(C) (or any successor U.S. Treasury Regulation section including, without limitation, regulations issued in accordance with U.S. Internal Revenue Service Notice 2012-20 or otherwise in connection with the U.S. Hiring Incentives to Restore Employment Act of 2010) (the "**TEFRA C Rules**") or United States Treasury Regulation §1.163-5(c)(2)(i)(D) (or any successor U.S. Treasury Regulation section including, without limitation, regulations issued in accordance with U.S. Internal Revenue Service Notice 2012-20 or otherwise in connection with the U.S. Hiring Incentives to Restore Employment Act of 2010) (the "**TEFRA D Rules**") are applicable in relation to the Notes or, if the Notes do not have a maturity of more than 365 days, that neither the TEFRA C Rules nor the TEFRA D Rules are applicable.

Temporary Global Note exchangeable for Permanent Global Note

If the relevant Final Terms specifies the form of Notes as being "Temporary Global Note exchangeable for a Permanent Global Note", then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for interests in a Permanent Global Note, without interest coupons, not earlier than 40 days after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. No payments will be made under the Temporary Global Note unless exchange for interests in the Permanent Global Note is improperly withheld or refused. In addition, interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever any interest in the Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the Issuer shall procure (in the case of first exchange) the delivery of a Permanent Global Note to the bearer of the Temporary Global Note or (in the case of any subsequent exchange) an increase in the principal amount of the Permanent Global Note in accordance with its terms against:

- (i) presentation and (in the case of final exchange) presentation and surrender of the Temporary Global Note to or to the order of the Fiscal Agent; and

- (ii) receipt by the Fiscal Agent of a certificate or certificates of non-U.S. beneficial ownership.

The principal amount of Notes represented by the Permanent Global Note shall be equal to the aggregate of the principal amounts specified in the certificates of non-U.S. beneficial ownership *provided, however*, that in no circumstances shall the principal amount of Notes represented by the Permanent Global Note exceed the initial principal amount of Notes represented by the Temporary Global Note.

If:

- (a) the Permanent Global Note has not been delivered or the principal amount thereof increased by 5.00 p.m. (London time) on the seventh day after the bearer of the Temporary Global Note has requested exchange of an interest in the Temporary Global Note for an interest in a Permanent Global Note; or
- (b) the Temporary Global Note (or any part thereof) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of the Temporary Global Note has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer of the Temporary Global Note in accordance with the terms of the Temporary Global Note on the due date for payment,

then the Temporary Global Note (including the obligation to deliver a Permanent Global Note) will become void at 5.00 p.m. (London time) on such seventh day (in the case of (a) above) or at 5.00 p.m. (London time) on such due date (in the case of (b) above) and the bearer of the Temporary Global Note will have no further rights thereunder (but without prejudice to the rights which the bearer of the Temporary Global Note or others may have under the Deed of Covenant).

The Permanent Global Note will become exchangeable, in whole but not in part only and at the request of the bearer of the Permanent Global Note, for Bearer Notes in definitive form ("**Definitive Notes**"):

- (a) on the expiry of such period of notice as may be specified in the Final Terms; or
- (b) at any time, if so specified in the Final Terms; or
- (c) if the Final Terms specifies "in the limited circumstances described in the Permanent Global Note", then if either of the following events occurs:
 - (i) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business; or
 - (ii) any of the circumstances described in Condition 13 (*Events of Default*) occurs.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the Final Terms), in an aggregate principal amount equal to the principal amount of Notes represented by the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Fiscal Agent within 30 days of the bearer requesting such exchange.

If:

- (a) Definitive Notes have not been duly delivered by 5.00 p.m. (London time) on the thirtieth day after the bearer has requested exchange of the Permanent Global Note for Definitive Notes; or
- (b) the Permanent Global Note was originally issued in exchange for part only of a Temporary Global Note representing the Notes and such Temporary Global Note becomes void in accordance with its terms; or
- (c) the Permanent Global Note (or any part thereof) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of the Permanent Global Note has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer in accordance with the terms of the Permanent Global Note on the due date for payment,

then the Permanent Global Note (including the obligation to deliver Definitive Notes) will become void at 5.00 p.m. (London time) on such thirtieth day (in the case of (a) above) or at 5.00 p.m. (London time) on the date on which such Temporary Global Note becomes void (in the case of (b) above) or at 5.00 p.m. (London time) on such due date ((c) above) and the bearer of the Permanent Global Note will have no further rights thereunder (but without prejudice to the rights which the bearer of the Permanent Global Note or others may have under the Deed of Covenant).

Temporary Global Note exchangeable for Definitive Notes

If the relevant Final Terms specifies the form of Notes as being "Temporary Global Note exchangeable for Definitive Notes" and also specifies that the TEFRA C Rules are applicable or that neither the TEFRA C Rules or the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole but not in part, for Definitive Notes not earlier than 40 days after the issue date of the relevant Tranche of the Notes.

If the relevant Final Terms specifies the form of Notes as being "Temporary Global Note exchangeable for Definitive Notes" and also specifies that the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for Definitive Notes not earlier than 40 days after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. Interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever the Temporary Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Temporary Global Note to the bearer of the Temporary Global Note against the surrender of the Temporary Global Note to or to the order of the Fiscal Agent within 30 days of the bearer requesting such exchange.

If:

- (a) Definitive Notes have not been duly delivered by 5.00 p.m. (London time) on the thirtieth day after the bearer has requested exchange of the Temporary Global Note for Definitive Notes; or
- (b) the Temporary Global Note (or any part thereof) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of the Temporary Global Note has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer in accordance with the terms of the Temporary Global Note on the due date for payment,

then the Temporary Global Note (including the obligation to deliver Definitive Notes) will become void at 5.00 p.m. (London time) on such thirtieth day (in the case of (a) above) or at 5.00 p.m. (London time) on such due date (in the case of (b) above) and the bearer of the Temporary Global Note will have no further rights thereunder (but without prejudice to the rights which the bearer of the Temporary Global Note or others may have under the Deed of Covenant).

Permanent Global Note exchangeable for Definitive Notes

If the relevant Final Terms specifies the form of Notes as being "Permanent Global Note exchangeable for Definitive Notes", then the Notes will initially be in the form of a Permanent Global Note which will be exchangeable in whole, but not in part, for Definitive Notes:

- (a) on the expiry of such period of notice as may be specified in the relevant Final Terms; or
- (b) at any time, if so specified in the relevant Final Terms; or
- (c) if the relevant Final Terms specifies "in the limited circumstances described in the Permanent Global Note", then if either of the following events occurs:
 - (i) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business; or

- (ii) any of the circumstances described in Condition 12 (*Events of Default*) occurs.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the Final Terms), in an aggregate principal amount equal to the principal amount of Notes represented by the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Fiscal Agent within 30 days of the bearer requesting such exchange.

If:

- (a) Definitive Notes have not been duly delivered by 5.00 p.m. (London time) on the thirtieth day after the bearer has requested exchange of the Permanent Global Note for Definitive Notes; or
- (b) the Permanent Global Note (or any part thereof) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of the Permanent Global Note has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer in accordance with the terms of the Permanent Global Note on the due date for payment,

then the Permanent Global Note (including the obligation to deliver Definitive Notes) will become void at 5.00 p.m. (London time) on such thirtieth day (in the case of (a) above) or at 5.00 p.m. (London time) on such due date ((b) above) and the bearer of the Permanent Global Note will have no further rights thereunder (but without prejudice to the rights which the bearer of the Permanent Global Note or others may have under the Deed of Covenant).

Rights under Deed of Covenant

Under the Deed of Covenant, persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Temporary Global Note or a Permanent Global Note which becomes void will acquire directly against the Issuer all those rights to which they would have been entitled if, immediately before the Temporary Global Note or Permanent Global Note became void, they had been the holders of Definitive Notes in an aggregate principal amount equal to the principal amount of Notes they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system.

Terms and Conditions applicable to the Notes

The terms and conditions applicable to any Definitive Note will be endorsed on that Note and will consist of the terms and conditions set out under "*Terms and Conditions of the Notes*" below and the provisions of the relevant Final Terms which complete those terms and conditions.

The terms and conditions applicable to any Note in global form will differ from those terms and conditions which would apply to the Note were it in definitive form to the extent described under "*Summary of Provisions Relating to the Notes while in Global Form*" below.

Legend concerning United States persons

In the case of any Tranche of Bearer Notes (other than Temporary Global Notes) and any Coupons and Talons appertaining thereto will bear a legend to the following effect:

"ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(J) AND 1287(A) OF THE INTERNAL REVENUE CODE OF 1986, AS AMENDED."

Registered Notes

Each Tranche of Registered Notes will be in the form of either individual Note Certificates in registered form ("**Individual Note Certificates**") or a global Note in registered form (a "**Global Registered Note**"), in each case as specified in the relevant Final Terms.

In a press release dated 22 October 2008, "*Evolution of the custody arrangement for international debt securities and their eligibility in Eurosystem credit operations*", the ECB announced that it has assessed the new holding structure and custody arrangements for registered notes which the ICSDs had designed in cooperation with market participants and that Notes to be held under the new structure (the "**New Safekeeping Structure**" or "**NSS**") would be in compliance with the "*Standards for the use of EU securities settlement systems in ESCB credit operations*" of the central banking system for the euro (the "**Eurosystem**"), subject to the conclusion of the necessary legal and contractual arrangements. The press release also stated that the new arrangements for Notes to be held in NSS form will be offered by Euroclear and Clearstream, Luxembourg as of 30 June 2010 and that registered debt securities in global registered form issued through Euroclear and Clearstream, Luxembourg after 30 September 2010 will only be eligible as collateral in Eurosystem operations if the New Safekeeping Structure is used.

Each Global Registered Note will either be: (a) in the case of a Note which is not to be held under the new safekeeping structure ("**New Safekeeping Structure**" or "**NSS**"), registered in the name of a common depositary (or its nominee) for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and the relevant Global Registered Note will be deposited on or about the issue date with the common depositary and will be exchangeable in accordance with its terms; or (b) in the case of a Note to be held under the New Safekeeping Structure, be registered in the name of a common safekeeper (or its nominee) for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and the relevant Global Registered Note will be deposited on or about the issue date with the common safekeeper for Euroclear and/or Clearstream, Luxembourg and will be exchangeable for Individual Note Certificates in accordance with its terms.

If the relevant Final Terms specifies the form of Notes as being "Individual Note Certificates", then the Notes will at all times be in the form of Individual Note Certificates issued to each Noteholder in respect of their respective holdings.

If the relevant Final Terms specifies the form of Notes as being "Global Registered Note exchangeable for Individual Note Certificates", then the Notes will initially be in the form of a Global Registered Note which will be exchangeable in whole, but not in part, for Individual Note Certificates:

- (a) on the expiry of such period of notice as may be specified in the relevant Final Terms; or
- (b) at any time, if so specified in the relevant Final Terms; or
- (c) if the relevant Final Terms specifies "in the limited circumstances described in the Global Registered Note ", then if either of the following events occurs:
 - (i) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or
 - (ii) any of the circumstances described in Condition 13 (*Events of Default*) occurs.

Whenever the Global Registered Note is to be exchanged for Individual Note Certificates, the Issuer shall procure that Individual Note Certificates will be issued in an aggregate principal amount equal to the principal amount of the Global Registered Note within five business days of the delivery, by or on behalf of the registered holder of the Global Registered Note to the Registrar of such information as is required to complete and deliver such Individual Note Certificates (including, without limitation, the names and addresses of the persons in whose names the Individual Note Certificates are to be registered and the principal amount of each such person's holding) against the surrender of the Global Registered Note at the specified office of the Registrar.

Such exchange will be effected in accordance with the provisions of the Agency Agreement and the regulations concerning the transfer and registration of Notes scheduled thereto and, in particular, shall be effected without charge to any holder, but against such indemnity as the Registrar may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such exchange.

If:

- (a) Individual Note Certificates have not been delivered by 5.00 p.m. (London time) on the thirtieth day after they are due to be issued and delivered in accordance with the terms of the Global Registered Note; or

- (b) any of the Notes represented by a Global Registered Note (or any part of it) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of the Notes has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the holder of the Global Registered Note in accordance with the terms of the Global Registered Note on the due date for payment,

then the Global Registered Note (including the obligation to deliver Individual Note Certificates) will become void at 5.00 p.m. (London time) on such thirtieth day (in the case of (a) above) or at 5.00 p.m. (London time) on such due date (in the case of (b) above) and the holder of the Global Registered Note will have no further rights thereunder (but without prejudice to the rights which the holder of the Global Registered Note or others may have under the Deed of Covenant. Under the Deed of Covenant, persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Global Registered Note will acquire directly against the Issuer all those rights to which they would have been entitled if, immediately before the Global Registered Note became void, they had been the holders of Individual Note Certificates in an aggregate principal amount equal to the principal amount of Notes they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system.

Terms and Conditions applicable to the Notes

The terms and conditions applicable to any Individual Note Certificate will be endorsed on that Individual Note Certificate and will consist of the terms and conditions set out under "Terms and Conditions of the Notes" below and the provisions of the relevant Final Terms which complete those terms and conditions.

The terms and conditions applicable to any Global Registered Note will differ from those terms and conditions which would apply to the Note were it in definitive form to the extent described under "*Summary of Provisions Relating to the Notes while in Global Form*" below.

DESCRIPTION OF THE ISSUER

HEMSÖ FASTIGHETS AB

General

Hemsö Fastighets AB (**Hemsö** or the **Company**, and together with its subsidiaries (including 50 per cent. owned joint ventures) taken as a whole from time to time, the **Group**) is incorporated as a limited liability company under the Swedish Companies Act sustainably owns, manages and develops properties for public use within the nursing home, education, healthcare and legal sectors. Its primary strategy is to have a presence in growth regions in which there is strong long-term demand for properties for public use and to engage in effective and sustainable management. Hemsö was one of the first private owners to focus on properties for public use in Sweden and, over the course of 15 years, has strengthened its position as market leader by developing its existing portfolio and through acquisitions and project development. As a result of strategic acquisitions and divestments, efficient property management and an established project development organisation, today Hemsö is Sweden's leading private owner of properties for public use¹. In addition, Hemsö has established operations in Finland and Germany.

Approximately 83 per cent. of Hemsö's portfolio is located in Sweden, 10 per cent. in Germany and 7 per cent. in Finland. As at 31 December 2016, Hemsö managed a portfolio valued at SEK 33.6 (compared to SEK 26.5 as at 31 December 2015) billion with a lettable area of 1,638,000 m² (compared with 1,499,000 m² as at 31 December 2015). 60 (compared to 59 as at 31 December 2015) per cent. of rental income is derived from public sector tenants such as the Government, municipalities, and county councils. The remainder is derived predominantly from private tenants who conduct publicly funded activities.

The business operations of Hemsö started in 2001 when the first properties for public use were acquired under Kungsleden AB (publ)'s (**Kungsleden**) management. Hemsö became an independent company when it was incorporated under the laws of the Kingdom of Sweden as a public limited liability company (*publikt aktieföretag*) on 13 January 2009. It was registered with the Swedish Companies Registration Office (*Bolagsverket*) on 23 March 2009 (with corporate identity number 556779-8169) and has been conducting operations since then in accordance with the Swedish Companies Act (2005:551). Hemsö's registered office and domicile is at Box 24 281, SE-104 51 Stockholm, Sweden, with telephone number +46 8501 170 00. Since 2013, Hemsö has been owned by the Third Swedish National Pension Fund (**AP3**) (70 per cent.) and Hemsö Intressenter² (30 per cent.). To the best of the Issuer's knowledge, the rights of AP3 and Hemsö Intressenter as the shareholders of the Issuer are contained in the articles of association of the Issuer and the Issuer will be managed in accordance with those articles and with the provisions of Swedish law.

² Hemsö Intressenter AB is, in turn, owned in equal shares by AP3 and AB Sagax.

Legal Structure

The following table represents the ownership structure of Hemsö:

AP3 is a public authority under the Swedish parliament and is one of five so-called buffer funds within the Swedish national pension system. AP3's total assets under management amounted to SEK 324 billion as of 31 December 2016. Hemsö is classified as an alternative investment by AP3. Pär Nuder is the Chairman of the board of both AP3 and Hemsö. Kerstin Hessius, CEO of AP3, is a member of Hemsö's board. AB Sagax is a property company listed on the regulated market of Nasdaq Stockholm and owns commercial properties, primarily in the warehouse and light industrial sector, mainly in Sweden and Finland. David Mindus, board member and Managing Director of AB Sagax, is also on Hemsö's board.

History

2001 – 2011

In 2001, as part of its aim to generate a high and stable yield, Kungsleden acquired properties with long leases within the nursing home sector. In 2005, Kungsleden increased its focus on properties with public sector activities, by expanding to include business areas such as healthcare, schools and nursing homes. In 2006, Kungsleden established operations in the German market through the acquisition of nine nursing homes, thereby increasing the Company's geographic diversification.

AP3 agreed in 2008 to acquire 50 per cent. of Kungsleden's portfolio of properties for public use in Sweden. In 2009 Hemsö was formed and AP3 became an owner of the Company. The establishment of Hemsö as an independent operational company with its own management team was completed in 2011 and the head office relocated to a separate address in Stockholm. During 2011, Hemsö acquired 17 properties from Kungsleden in Germany with a combined property value of SEK 1.3 billion.

2012

In 2012, Hemsö continued to grow the value of its property portfolio and made a number of acquisitions and some minor divestments. Hemsö also issued its first bond in May 2012, which was issued on the Swedish domestic market (an unsecured three-year bond of SEK 750 million). At the end of 2012, AP3 signed an agreement with Kungsleden to acquire the remaining 50 per cent. of the shares in Hemsö.

2013

Hemsö made its first acquisition in the Finnish market in 2013. In order to broaden the supply of capital and secure financing needs over time, Hemsö established a programme for the issuance of commercial paper with a programme limit of SEK 2.0 billion as well as a Swedish MTN programme with a programme limit of SEK 6.0 billion. AB Sagax (a listed Swedish real estate company) acquired a 50 per cent. stake in Hemsö Intressenter AB which, in turn, owns 30 per cent. of Hemsö.

2014

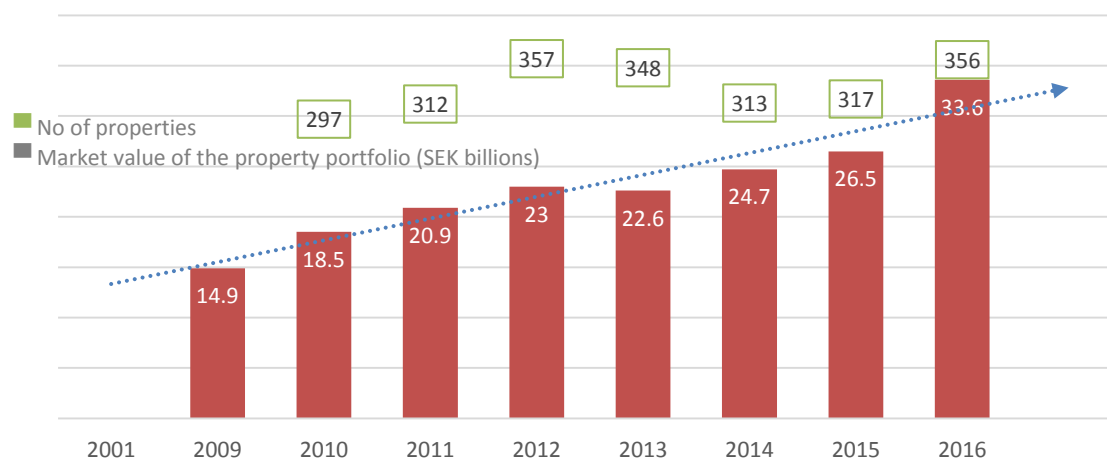

In 2014, Hemsö acquired 33 properties and sold 68 properties. Through these transactions, the Company concentrated its property portfolio in growth regions and created more efficient management units. Properties which were not in line with the Company's strategy in terms of location, category and potential were sold. High quality properties primarily within the education, health care and legal sectors were acquired. Hemsö's property portfolio was expanded with a major investment in life science properties. Further properties were added to the portfolio in Germany and Finland.

2015

In March 2015, Hemsö obtained a credit rating of 'A-' from Standard & Poor's Credit Market Services Europe Ltd. During the year, the Company repaid its shareholder loan with a nominal value of SEK 3.0 billion by means of a rights issue which did not affect the Company's ownership structure. In June, Hemsö and SveaNor established a jointly owned project development company called Vitartes, with a focus on Life Science properties and a potential project volume of approximately SEK 4 billion. During the third quarter, the Company decided to include sustainability as a core business focus (see "*Business Model and Strategy – Sustainability*" below).

2016

In May 2016 Hemsö issued its first Sustainable Bond. In August 2016 Hemsö established an EMTN programme with a limit of EUR 3.0 billion. In September 2016 the first bond was issued under the programme into the European market. As at 31 December 2016, Hemsö's property portfolio comprised 356 properties with a total property value of SEK 33.6 billion. The following charts show the historic development of the property portfolio from the formation of Hemsö in 2009 to 31 December 2016. During 2016 Hemsö appointed Nils Styf as CEO and Rutger Källén as CFO.

Business Model and Strategy

Hemsö owns, manages and develops properties for public use in an economically, socially and environmentally sustainable manner. Premises are let primarily for activities within the nursing homes, education, health care and legal sectors. The strategy is to maintain a diversified property portfolio in terms of product category, tenant structure and geographic market. Accordingly, Hemsö currently has operations in Sweden, Finland and Germany in each case in areas that are considered to possess sound long-term growth prospects. Within each region, the properties are geographically concentrated in order to promote efficient management. Hemsö's tenants consist primarily of the Government, county councils and municipalities, but to a certain extent also private operators who conduct publicly-financed activities. The tenants' activities impose specific demands as regards premises, external areas and management. Accessibility, user-friendliness for the disabled, security, suitability for a pupil/student base and public authority requirements are some of the key requirements. In addition to acquisitions, Hemsö creates growth by project development, both by developing new-build properties and within the existing property portfolio. Hemsö aims to ensure that its project development business is characterised by:

- lease agreements being in place for a substantial part of each new development prior to the commencement of each project;
- long leases;
- sustainable production and sustainable end products; and
- fixed-price turnkey projects.

In order to create favourable opportunities for acquisitions and developments, Hemsö promotes good relations with municipalities, county councils as well as private sector and governmental operators. Hemsö is an independent company and therefore has to go through procurement and tender processes in respect of such acquisitions and developments. Maintaining good relationships with regular counterparties is essential to the success and development of Hemsö.

Asset management

Hemsö's asset management focus is on being efficient, sustainable and customised to the needs of the tenants. Hemsö works in close cooperation with its tenants to understand their future needs and requirements and consequently Hemsö's management believes that it has a good general knowledge and understanding of its customers' businesses. The properties are concentrated in certain geographical areas in order to create efficient management. Hemsö's tenants engage in long-term activities with long leases, a factor which facilitates sustainable management and efficient use of resources.

Hemsö has a clear focus on development and continually improving efficiency in order to exploit the economies of scale available to a company of its size. Management in Sweden is organised into four regions: East, West, North and South. Customer relations and property development are handled locally by each regional team. In addition, Hemsö has country managers in Finland and Germany whose role also covers asset management for those countries. Contact with tenants is handled locally by the managers and responsible personnel in each region/country. In addition, Hemsö has customer account managers with specific responsibility for larger tenants in Sweden, such as the listed companies Attendo, AcadeMedia, the Western Götaland Region and the Police Authority.

Hemsö places great importance on keeping vacancy levels as low as possible. The average occupancy rate between 1 January 2012 and 31 December 2016 was 96.5 (compared to 96.2 as at 31 December 2015) per cent. per year. A large portion of approximately 80 per cent. (by value) of Hemsö's leases include a provision for rent increases based on changes in the Swedish Consumer Price Index (CPI) in addition to base rents (i.e. such leases are wholly or partially linked to inflation). Given that Hemsö's leases are usually signed with a duration of 10-20 years (the average remaining lease term was 8.1 years as at 31 December 2016) and there is a low vacancy rate amongst Hemsö's properties, combined with the fact that Hemsö's tenants have high credit ratings, have ensured historically high and stable rental income and minimal bad debt losses.

Project development

Hemsö engages in project development by working closely with the Swedish Government, county councils and municipalities in order to identify and seize project development opportunities at an early stage. Many Swedish municipalities have an ageing property portfolio, with the consequence that there is a need for new properties and refurbishment of existing properties.

In order to meet the on-going needs of tenants and ensure that the property portfolio is well maintained and retains its value over time, Hemsö regularly refurbishes, and builds extensions to, its existing portfolio.

Hemsö has a wholly-owned project development company in each Swedish region with responsibility for project development, as well as a dedicated project development subsidiary responsible for Sweden as a whole. Hemsö also maintains relationships with municipalities and county councils in order to identify new project opportunities at an early stage. Project development takes place in-house or together with partner companies. Project risks are minimised by the fact that Hemsö will only commence a project once leases are largely secured for it. The projects are often carried out pursuant to fixed price agreements to ensure greater cost control. In addition, to the extent required, project development in Germany and Finland is handled locally.

Transaction activities

As a consequence of a growing and ageing population, there is strong demand for properties for public use in Sweden. The Swedish rental and transaction market for properties for public use is mature and the concept of properties for public use being privately owned is well-established. Hemsö is acknowledged in the property market and has established good relations with the Swedish Government, municipalities, county councils as well as private operators, and in recent years has held a market share of approximately 10 to 20 per cent. of the Swedish transaction volume in respect of properties for public use, according to the estimations of management.

Municipalities have overall responsibility to provide certain public services, including care for the elderly and education for the young. As many of Hemsö's properties are tailored to the provision of such services, default by a tenant that is a private operator in respect of these is likely to lead to the relevant municipality taking over such private operator's obligations under the relevant lease.

Hemsö has its own transaction management team which supervises acquisitions and divestments and involves the local management teams as required. Transactions concerning properties for public use involve processes to secure political support and entail a complicated regulatory regime, which may result in relatively lengthy processes. Agreements concerning acquisitions and divestments are often of a standardised nature and usually contain customary warranties.

The Finnish market for properties for public use is relatively immature compared with the Swedish market and demonstrates low volumes. Germany, on the other hand, has a very large property market for nursing homes, but with a large number of smaller property owners. The German market for nursing home properties is thus relatively fragmented and characterised by high transaction costs. Hemsö has developed a high level of familiarity and experience on both the Finnish and the German markets, which is utilised in connection with acquisitions.

Competition

Competition in the transaction market for properties for public use has increased since Hemsö was established where both larger institutions and newly established companies compete but Hemsö is still the leading private owner of properties for public use in the Swedish market and one of the leading private owners of properties for public use in Germany and Finland. The long-term perspective, knowledge, geographical coverage and experience has given Hemsö advantages to be able to invest in high quality properties for the long-term or grow the portfolio through project development.

Sustainability

Sustainability is integrated into Hemsö's operations, from overarching targets and business focus through internal policy and monitoring to personal goals for each employee. As a part of Hemsö's business strategy of sustainably owning, managing and developing properties for public use, Hemsö engages in long-term operations that seek to positively impact on people, society, the economy and the environment. Hemsö's focus in this respect entails the following:

- Social sustainability – conducting operations with respect for the health, rights and welfare of other people and, through Hemsö's operations, working towards a society and workplace based on these principles.
- Environmental sustainability – carrying out projects and operations that limit the use of non-renewable energy resources which have a detrimental impact on natural ecosystems and the environment.
- Economic sustainability – generating profitability and economic growth within the framework of social and environmental sustainability described above.

Hemsö has many opportunities to reduce its environmental footprint within the area of asset management of its portfolio.

Hemsö's targets with respect to sustainability include, among other things, the following:

- at least 100 properties will be certified as having met the 'Green Building' standard by 2020. The Green Building standard was developed by the European Union in 2004 to trigger investments in energy efficiency and renewable energy technologies in non-residential buildings. Although the

European Union ended the initiative in 2014, the Swedish Green Building Council continues to administer and manage the certification in Sweden;

- the total use of energy within the property portfolio will be reduced by 30 per cent. between 2012 and 2020;
- new constructions will have a reduced environmental impact by minimising landfill waste;
- all new buildings will be environmentally certified as Silver standard or higher according to 'Miljöbyggnad'. Miljöbyggnad is a Swedish environmental certification system used for residential and commercial buildings. The rating scale is from Gold to Bronze; and

Financing and capital structure

The overall objective of Hemsö's financial management is to maintain the long term stability of the capital structure and to optimise the financial position within the given risk framework set under its finance policy described below. Hemsö is financed with both shareholders' equity and external debt financing. Hemsö's external borrowing includes both bank facilities and capital markets funding. As at 31 December 2016 external financing amounted to SEK 22,442 million (compared to SEK 17,433 million as at 31 December 2015) and comprises secured bank loans and unsecured bonds and commercial paper. Shareholders' equity amounted to SEK 8,672 million (compared to SEK 6,764 million as at 31 December 2015), implying an equity ratio of 25 per cent. (compared to 25 per cent. as at 31 December 2015), and loans from minority owners of SEK 41 million. In 2015, Hemsö received a credit rating from Standard and Poor's. The current rating is 'A-' with stable outlook.

Responsibility for Hemsö's financial transactions and risks is managed centrally by its finance department based in Stockholm. The department is tasked with managing existing debt, supplying new borrowing for acquisitions and investments, ensuring efficient liquidity management, and limiting financial risks. The work is governed by

the finance policy adopted each year by the Board of Directors. The finance policy governs the allocation of responsibilities and risk mandates and establishes principles regarding reporting, follow-up and control. Strategic finance matters are decided by Hemsö's Board of Directors.

The following table sets out the key requirements contained within the finance policy and Hemsö's performance in respect of each as at 31 December 2016.

Overview of market

The markets for public properties are growing in all three countries where Hemsö is conducting business. Demand for community services, and therefore demand for properties for public use, is expected to increase as a consequence of the demographic trends of an ageing and increasing population generally. In Sweden, Germany and Finland, the standard and quality of properties for public use are high and are subject to detailed design and usage requirements.

In Sweden the market for public properties has generally increased in recent years following divestments by the Swedish Government, city councils and municipalities. Despite the fact that competition in the category has increased and the number of companies focusing on properties for public use is steadily increasing, most of the properties for public use are still owned by Sweden's 290 municipalities and county councils, although the trend of property divestment by the public sector continues. Hemsö is an independent company and transacts with all entities, including those in the public sector, on an arm's length basis. Within community services, private sector alternatives are steadily increasing, with the consequence that the construction of new properties for private sector alternatives is increasingly being carried out by parties other than the Government, municipalities or county councils. It is thus likely that Sweden's stock of privately-owned properties for public use will continue to grow in the long term. In addition, there is a substantial need for further development of school premises and nursing homes in Sweden, a strong trend towards urbanisation and a growing appetite for the provision of public funding to finance the business/activities of Hemsö's tenants.

Properties for public use in Finland are also largely owned by the Government and municipalities. The privatisation of community services such as nursing homes, education and health care is less extensive.

In Germany, care for the elderly takes place on a competitive basis. General and public nursing home insurance schemes were introduced in the mid-1990s. The insurance schemes are financed through a special payroll tax and managed by private insurance funds. When the insurance policy matures, the individual citizen can choose to receive care at home, or move to a nursing home. Nursing homes are operated and owned by a range of providers, including private companies on a for-profit basis, charitable organisations, foundations and trade unions.

In Finland, going forward, Hemsö intends to continue to focus on growth, and will continue to benefit from the fact that it is one of the first private owners of properties for public use. In Germany, Hemsö exclusively owns nursing homes. The Company will continue to develop its portfolio through acquisitions and project development.

Property portfolio

On 31 December 2016, Hemsö's total property value amounted to SEK 33.6 billion (compared to SEK 26.5 billion as at 31 December 2015) and comprised 356 properties (compared to 317 as at 31 December 2015), of which the lettable area was 1,638,000 m² (compared to 1,499,000 m² as at 31 December 2015). During the most recent five-year period, the value of Hemsö's portfolio of investment properties has increased in total by 46 per cent., representing average annual growth of 9 per cent. Hemsö's current portfolio has developed through acquisitions and project development and has been streamlined through the divestment of non-strategic properties. Growth has taken place with maintained profitability and a balanced approach to financial risk.

Hemsö's property portfolio is divided into the following property categories: nursing homes, education, healthcare and legal sector. The properties are located in Sweden, Germany and Finland. As at 31 December 2016, Hemsö owned 278 properties (compared to 259 as at 31 December 2015) in Sweden, 40 (compared to 33 as at 31 December 2015) in Germany and 38 (compared to 25 as at 31 December 2015) in Finland. As at 31 December 2016, the market value of Hemsö's property portfolio was SEK 33.6 billion (compared to SEK 26.5 billion as at 31 December 2015), which corresponds to SEK 20,529 per m² (compared to SEK 17,686 per m² as at 31 December 2015). This valuation is determined through internal valuations carried out by Hemsö, taking into account an individual assessment of market value in respect of each property. Hemsö applies a valuation method based on a cash flow analysis which, in turn, is based on each property's budgeted net operating income. The property portfolio is appraised each year externally for quality control purposes. The valuation report for the year ended 31 December 2016 was delivered by Savills plc (in relation to the Swedish portfolio), Jones Lang LaSalle Incorporated (in relation to the Finnish portfolio), and CBRE (in relation to the German portfolio). In recent years, Hemsö has created more efficient management units and continued its expansion in Finland and Germany.

In Sweden, Hemsö owns properties in each of the categories of nursing homes, education, healthcare and legal sector. The three major metropolitan regions of Sweden (Stockholm, Gothenburg and Malmo) account for the largest share (49 per cent. as at 31 December 2016 (compared to 48 per cent. as at 31 December 2015)) of the market value of Hemsö's total property portfolio.

In Finland, Hemsö owns property in the nursing home, education and health care sectors but not the legal sector. The property portfolio in Germany consists exclusively of nursing homes. Hemsö's portfolios in Finland and

Germany are concentrated in towns and cities in which there is deemed to be strong long-term demand for properties for public use.

Tenants and lease structure

The rental market for properties for public use is characterised by long leases, credit worthy tenants, low volatility as regards rent levels and limited risk of vacancy. Hemsö has a large number of leases, on average with long term maturities. The tenants are primarily comprised of the Swedish Government, county councils, municipalities and private operators, including a couple of large, listed companies, who conduct publicly funded activities. The total rental value of the property portfolio on 31 December 2016 was SEK 2,189 million (compared to SEK 1,988 million as at 31 December 2015), of which the assessed rental value of vacant premises amounted to SEK 60 million (compared to SEK 59 million as at 31 December 2015).

The following table sets out Hemsö's 20 largest tenants as at 31 December 2016.

As at 31 December 2016, the economic occupancy rate was 97 per cent. (compared to 96.2 per cent. as at 31 December 2015). As at 31 December 2016, the average remaining lease term was 8.1 years (compared to 7.6 years as at 31 December 2015). As at 31 December 2016, Hemsö had nearly 1,900 leases allocated (compared to 1,800 leases as at 31 December 2015), where 440 leases (compared to 461 leases as at 31 December 2015) were held by the 20 largest tenants. As at 31 December 2016, the 20 largest tenants accounted for 51.2 per cent. (compared to 55.4 per cent. as at 31 December 2015) of Hemsö's total lease value. Revenues from public sector tenants, i.e. the Government, municipalities and county councils, accounted for 60 per cent. (compared to 58.5 per cent. as at 31 December 2015) of Hemsö's total lease value.

The following graph sets out the maturity structure of Hemsö's leases as at 31 December 2016.

The following graph sets out the average remaining lease term of Hemsö's leases as at 31 December 2016.

According to the assessment of management, the underlying leases relating to approximately 80 per cent. of Hemsö's rental income contain provisions for the increase of rent in line with increases in CPI inflation. The

long leases, combined with tenants with assured payment capability and a low vacancy rate, contribute to stable rental income and minimal bad debt losses.

Operating and maintenance costs

Operating and maintenance costs are negotiated on a lease-by-lease basis. In Sweden, Hemsö is in general responsible for operating and maintenance costs which are factored into the rent paid by the tenant. In Germany, all leases are “triple net leases” (pursuant to which the tenant pays all property costs with the exception of structural maintenance). In Finland, approximately 70 per cent. of leases are triple net leases, while others are similar to the Swedish model. Hemsö hedges its electricity costs to reduce its exposure to price volatility.

Employees

As at 31 December 2016, Hemsö had a total of 109 full-time employees (compared to 112 as at 31 December 2015). In addition to certain joint group functions, Hemsö’s operational structure comprises management organisations in Sweden, Finland and Germany. Hemsö’s management team comprises 8 individuals (compared to 12 as at 31 December 2015), including all country managers, the CEO and CFO, as well as heads of the following joint group functions: Strategy & Transactions, HR and Asset Management. Recent Developments

The following represent the material developments affecting Hemsö and the Group since 31 December 2016:

- In April 2017 Hemsö issued in total EUR 60 million under the company's EMTN programme. The bond has a term of 15 years with a credit margin of 0.80 per cent over the mid swap rate and carries a fixed annual coupon of 1.80 per cent. The issue is Hemsö's second issue in the euro market and first bond with a term of more than 10 years.
- In April 2017, Åsa Bergström was elected as new member of the Board of Directors at Hemsö's Annual General Meeting and replaces Eva Eriksson who declined re-election.
- In May 2017 Hemsö acquired two nursing homes under construction in Ahrensburg (Hamburg) and Reinfeld (Lübeck), Germany, for SEK 228 million. Together, the properties will comprise 205 nursing home apartments and the total area is 11,200 sqm. The tenant is Inter Pares, which has signed a 25-year lease. The investment amount is SEK 228 million. The properties were divested by TERRAGON, a German project developer within the nursing home segment, and are scheduled to be completed during the autumn of 2018. Possession will be transferred after construction is complete.

TAXATION

The following is a general description of certain tax considerations relating to the Notes. It does not purport to be a complete analysis of all tax considerations relating to the Notes, whether in those countries or elsewhere. Prospective purchasers of Notes should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of Notes and receiving payments of interest, principal and/or other amounts under the Notes and the consequences of such actions under the tax laws of those countries. This summary is based upon the law as in effect on the date of this Base Prospectus and is subject to any change in law that may take effect after such date.

The Kingdom of Sweden

The following summary outlines certain Swedish tax consequences of the acquisition, ownership and disposal of Notes. The summary is based on the laws of Sweden as in effect as of the date of this Base Prospectus and is intended to provide general information only. The summary is not exhaustive and does thus not address all potential aspects of Swedish taxation that may be relevant for a potential investor in the Notes and is neither intended to be nor should be construed as legal or tax advice. In particular, the summary does not address the rules regarding reporting obligations for, among others, payers of interest. Specific tax consequences may be applicable to certain categories of corporations, e.g. investment companies and life insurance companies, not described below. In addition, the summary does not address Notes that are held on an "investment savings account" (investeringssparkonto) that are subject to a specific tax regime. Investors should consult their professional tax advisors regarding the Swedish and foreign tax consequences (including the applicability and effect of double taxation treaties) of acquiring, owning and disposing of Notes in their particular circumstances.

Non-resident holders of Notes

As used herein, a non-resident holder means a holder of Notes who is (a) an individual who is not a resident of Sweden for tax purposes and who has no connection to Sweden other than his/her investment in the Notes, or (b) an entity not organized under the laws of Sweden.

Payments of any principal amount or any amount that is considered to be interest for Swedish tax purposes to a non-resident holder of any Notes should not be subject to Swedish income tax provided that such holder does not carry out business activities from a permanent establishment in Sweden to which the Notes are effectively connected. Under Swedish tax law, no withholding tax is imposed on payments of principal or interest to a non-resident holder of any Notes.

Under Swedish tax law, a capital gain on a sale of Notes by a non-resident holder will not be subject to Swedish income tax unless the non-resident holder of Notes carries on business activities in Sweden through a permanent establishment to which the Notes are attributable.

Private individuals who are not resident in Sweden for tax purposes may be liable to capital gains taxation in Sweden upon disposal or redemption of certain financial instruments, depending on the classification of the particular financial instrument for Swedish income tax purposes, if they have been resident in Sweden or have lived permanently in Sweden at any time during the calendar year of disposal or redemption or the ten calendar years preceding the year of disposal or redemption. This liability may, however, be limited by tax treaties between Sweden and other countries.

Resident holders of Notes

As used herein, a resident holder means a holder of Notes who is (a) an individual who is a resident in Sweden for tax purposes or (b) an entity organized under the laws of Sweden.

Generally, for Swedish corporations and private individuals (and estates of deceased individuals) that are resident holders of any Notes, all capital income (e.g. income that is considered to be interest for Swedish tax purposes and capital gains on Notes) will be taxable.

Amortization of principal is not otherwise subject to Swedish income tax. Swedish tax law does not impose withholding tax on payments of principal or interest to a resident holder of notes. However, if amounts that are considered to be interest for Swedish tax purposes are paid to a private individual (or an estate of a deceased person) that is a resident holder of Notes, Swedish preliminary tax (*preliminärskatt*) is normally withheld on such payments at a rate of 30 per cent.

The proposed financial transactions tax ("FTT")

On 14 February 2013, the European Commission published a proposal (the "**Commission's proposal**") for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**"). However, Estonia has since stated that it will not participate.

The Commission's proposal has very broad scope and could, if introduced, apply to certain dealings in the Notes (including secondary' market transactions) in certain circumstances. The issuance and subscription of Notes should, however, be exempt.

Under the Commission's proposal, FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate.

Prospective holders of Notes are advised to seek their own professional advice in relation to the FTT.

The Foreign Account Tax Compliance Act ("FATCA")

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a "**foreign financial institution**" (as defined in FATCA) may be required to withhold on certain payments it makes ("**foreign passthru payments**") to persons that fail to meet certain certification, reporting, or related requirements. The Issuer may be a foreign financial institution for these purposes. A number of jurisdictions (including Sweden) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("**IGAs**"), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, such withholding would not apply prior to 1 January 2019 and Notes characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes issued on or prior to the date that is six months after the date on which final regulations defining "foreign passthru payments" are filed with the U.S. Federal Register generally would be "grandfathered" for purposes of FATCA withholding unless materially modified after such date. However, if additional notes (as described under "Terms and Conditions of the Notes—Further Issues") that are not distinguishable from previously issued Notes are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Notes, including the Notes offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisers regarding how these rules may apply to their investment in the Notes. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Notes, no person will be required to pay additional amounts as a result of the withholding.

SUBSCRIPTION AND SALE

Notes may be sold from time to time by the Issuer to any one or more of Barclays Bank PLC, BNP Paribas, Citigroup Global Markets Limited, Danske Bank A/S, Deutsche Bank AG, London Branch, Nordea Bank AB (publ), Skandinaviska Enskilda Banken AB (publ), Svenska Handelsbanken AB (publ) and Swedbank AB (publ) and any additional dealers that may accede to the programme from time to time (the "**Dealers**"). The arrangements under which Notes may from time to time be agreed to be sold by the Issuer to, and subscribed by, Dealers are set out in a Dealer Agreement dated 9 June 2017 (the "**Dealer Agreement**") and made between the Issuer and the Dealers. If in the case of any Tranche of Notes the method of distribution is an agreement between the Issuer and a single Dealer for that Tranche to be issued by the Issuer and subscribed by that Dealer, the method of distribution will be described in the relevant Final Terms as "Non-Syndicated" and the name of that Dealer and any other interest of that Dealer which is material to the issue of that Tranche beyond the fact of the appointment of that Dealer will be set out in the relevant Final Terms. If in the case of any Tranche of Notes the method of distribution is an agreement between the Issuer and more than one Dealer for that Tranche to be issued by the Issuer and subscribed by those Dealers, the method of distribution will be described in the relevant Final Terms as "Syndicated", the obligations of those Dealers to subscribe the relevant Notes will be joint and several and the names and addresses of those Dealers and any other interests of any of those Dealers which is material to the issue of that Tranche beyond the fact of the appointment of those Dealers (including whether any of those Dealers has also been appointed to act as Stabilising Manager in relation to that Tranche) will be set out in the relevant Final Terms.

Any such agreement will, *inter alia*, make provision for the form and terms and conditions of the relevant Notes, the price at which such Notes will be subscribed by the Dealer(s) and the commissions or other agreed deductibles (if any) payable or allowable by the Issuer in respect of such subscription. The Dealer Agreement makes provision for the resignation or termination of appointment of existing Dealers and for the appointment of additional or other Dealers either generally in respect of the Programme or in relation to a particular Tranche of Notes.

Selling Restrictions

United States of America: *Regulation S Category 2; TEFRA D or TEFRA C as specified in the relevant Final Terms or neither if TEFRA is specified as not applicable in the relevant Final Terms.*

The Notes have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S.

The Bearer Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a U.S. person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the United States Internal Revenue Code and regulations thereunder.

Each Dealer has agreed that, except as permitted by the Dealer Agreement, it will not offer, sell or deliver Notes, (i) as part of their distribution at any time or (ii) otherwise until 40 days after the completion of the distribution of the Notes comprising the relevant Tranche, as certified to the Fiscal Agent or the Issuer by such Dealer (or, in the case of a sale of a Tranche of Notes to or through more than one Dealer, by each of such Dealers as to the Notes of such Tranche purchased by or through it, in which case the Fiscal Agent or the Issuer shall notify each such Dealer when all such Dealers have so certified) within the United States or to, or for the account or benefit of, U.S. persons, and such Dealer will have sent to each dealer to which it sells Notes during the distribution compliance period relating thereto a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons.

In addition, until 40 days after the commencement of the offering of Notes comprising any Tranche, any offer or sale of Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act.

Prohibition of Sales to EEA Retail Investors

From 1 January 2018, unless the Final Terms in respect of any Notes specifies the "Prohibition of Sales to EEA Retail Investors" as "Not Applicable", each Dealer has represented and agreed, and each further Dealer

appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to any retail investor in the European Economic Area. For the purposes of this provision:

- (a) the expression "**retail investor**" means a person who is one (or more) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or
 - (ii) a customer within the meaning of the Insurance Mediation Directive (Directive 2002/92/EC (as amended)), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended, including by Directive 2010/73/EU) (the "**Prospectus Directive**"); and
- (b) the expression an "**offer**" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes.

Prior to 1 January 2018, and from that date if the Final Terms in respect of any Notes specifies "Prohibition of Sales to EEA Retail Investors" as "Not Applicable" in relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each a "**Relevant Member State**"), each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree, that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the "**Relevant Implementation Date**") it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto (or are the subject of the offering contemplated by a Drawdown Prospectus, as the case may be) to the public in that Relevant Member State except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Notes to the public in that Relevant Member State:

- (a) if the Final Terms or Drawdown Prospectus in relation to the Notes specify that an offer of those Notes may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Relevant Member State (a "**Public Offer**"), following the date of publication of a prospectus in relation to such Notes which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, provided that any such prospectus (which is not a Drawdown Prospectus) has subsequently been completed by the Final Terms contemplating such Public Offer, in accordance with the Prospectus Directive, in the period beginning and ending on the dates specified in such prospectus or Final Terms, as applicable, and the Issuer has consented in writing to its use for the purposes of that Public Offer;
- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (c) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (d) at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of Notes referred to in (b) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an "**offer of Notes to the public**" in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State, and the expression "**Prospectus Directive**" means Directive

2003/71/EC (as amended, including by Directive 2010/73/EU), and includes any relevant implementing measure in the Relevant Member State.

Selling Restrictions Addressing Additional United Kingdom Securities Laws

Each Dealer has represented, warranted and agreed that:

- (a) **No deposit-taking:** in relation to any Notes having a maturity of less than one year:

 - (ii) it has not offered or sold and will not offer or sell any Notes other than to persons:
 - (A) whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of their businesses; or

- (b) **Financial promotion:** it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of section 21 of the FSMA) received by it in connection with the issue or sale of any Notes in circumstances in which section 21(1) of the FSMA would not, if it was not an authorised person, apply to the Issuer; and
- (c) **General compliance:** it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Notes in, from or otherwise involving the United Kingdom.

Japan

The Notes have not been and will not be registered under the Financial Instruments and Exchange Act of Japan (Act No. 25 of 1948), as amended (the "FIEA"). Accordingly, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not, directly or indirectly, offered or sold and will not, directly or indirectly, offer to sell any Notes in Japan or to, or for the benefit of, a resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organised under the laws of Japan) or to others for re-offering or resale, directly or indirectly, in Japan or to, or for the benefit of, any resident in Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, FIEA and other relevant laws and regulations of Japan.

The Kingdom of Sweden

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that no Notes will be offered to the public in Sweden nor admitted to trading on a regulated market in Sweden unless and until (A) a prospectus in relation to those Notes has been approved by the competent authority in Sweden or, where appropriate, approved in another Relevant Member State and such competent authority has certified to the competent authority in Sweden that the prospectus has been approved with respect to the Prospectus Directive and the Swedish Financial Instruments Trading Act; or (B) an exemption from the requirement to prepare a prospectus is available under the Swedish Financial Instruments Trading Act.

Each Dealer has represented, warranted and agreed that it has complied and will comply with all applicable laws and regulations in each country or jurisdiction in or from which it purchases, offers, sells or delivers Notes or possesses, distributes or publishes this Base Prospectus or any Final Terms or any related offering material, in all cases at its own expense. Other persons into whose hands this Base Prospectus or any Final Terms comes are

required by the Issuer and the Dealers to comply with all applicable laws and regulations in each country or jurisdiction in or from which they purchase, offer, sell or deliver Notes or possess, distribute or publish this Base Prospectus or any Final Terms or any related offering material, in all cases at their own expense.

The Dealer Agreement provides that the Dealers shall not be bound by any of the restrictions relating to any specific jurisdiction (set out above) to the extent that such restrictions shall, as a result of change(s) or change(s) in official interpretation, after the date hereof, of applicable laws and regulations, no longer be applicable but without prejudice to the obligations of the Dealers described in the paragraph headed "*General*" above.

Selling restrictions may be supplemented or modified with the agreement of the Issuer.
